

# SIAM WELLNESS GROUP SPA

MAI

## Expect strong momentum in 4Q24

We maintain a **BUY** rating for SPA with a **Bt8.50** target price. Earnings should be stronger yoy and qoq in 4Q24F driven by peak tourist season, increasing foreign tourist arrivals, and more branches. We expect earnings to grow by 16% CAGR (2-year) over 2024-2026F. SPA is currently trading at 25x 2025F PER, or -1SD below its historical trading multiple. This presents an attractive investment opportunity to capture earnings growth ahead, especially during 4Q-1Q peak season.

### Increasing tourist arrivals, branch expansion drive revenues in 4Q24

SPA is a direct beneficiary of rising foreign tourist arrivals in Thailand. Total arrivals have reached 33.4 million YTD (+27% yoy, 90% of pre-covid level), with China arrivals at 65% of pre-covid level. Foreign tourists generate 70% of SPA's revenue, with East Asian visitors accounting for 50%. SSSG should be stable in 4Q at 8% (similar to 3Q) supported by rising tourist arrivals. And, SPA is expanding its network, opening two new stores to reach 79-80 branches by end-2024 (from 77 in 3Q24, we forecast 79 branches). Looking at 2025, the company has already secured 4-5 locations for new branches and is negotiating for more sites.

### Expect earnings to improve yoy and qoq in 4Q24F

We expect 4Q24F core profit to rise qoq due to seasonal factors. However, it would drop yoy because of a one-time tax benefit of Bt56m booked in 4Q23; excluding this, pre-tax profit should improve yoy. 9M24 profit is 69% of our full-year projection. We are keeping profit at Bt313m for FY24F and Bt365m for FY25F (+16% yoy).

### Maintain BUY rating with a target price of Bt8.50 (DCF)

SPA is now trading at 25x 2025F PER or -1SD of its historical trading multiple. Group earnings have exceeded pre-Covid levels and is projected to grow by 16% CAGR over 2024-2026F driven by rising tourist arrivals, additional branches, and improving margins.

**ANALYST CERTIFICATION FOR REGULATION**

We, Research Division of Krungsri Securities Public Company Limited (KSS), hereby certify that all of the views expressed in this research report accurately reflect our personal views about any and all of the subject securities or issuers discussed herein.

In addition, we hereby certify that no part of our compensation was, is, or will be, directly or indirectly related to the specific recommendations or views that we have expressed in this research report, nor is it tied to any specific investment banking transactions performed by Krungsri Securities Public Company Limited.

**Stocks:**

Stock recommendations are based on absolute valuation upside (downside), which is defined as  $(\text{Target Price} - \text{Current Price}) / \text{Current Price}$ , subject to limited management discretion. In most cases, the Target Price will equal the analyst's assessment of the current intrinsic fair value of the stock using an appropriate valuation methodology such as Discounted Cash Flow or Multiple analysis etc. However, if the analyst doesn't think the market will revalue the stock over the specified time horizon due to a lack of events or catalysts, then the target price may differ from the intrinsic fair value. In most cases, therefore, our recommendation is an assessment of the difference between current market price and our estimate of current intrinsic fair value. Recommendations are set with a 6-12 month horizon unless specified otherwise. Accordingly, within this horizon, price volatility may cause the actual upside or downside based on the prevailing market price to differ from the upside or downside implied by the recommendation.

- A "Buy" recommendation indicates that potential upside is 15% or more.
- A "Trading Buy" recommendation indicates that potential upside is between 5% - 15%.
- A "Neutral" recommendation indicates that potential upside is less than 5% or downside is less than 5%.
- A "Reduce" recommendation indicates that potential downside is 5% or more.

**Sectors:**

A "Bullish" rating means most stocks in the sector have (or the weighted average recommendation of the stocks under coverage is) a positive absolute recommendation.

A "Neutral" rating means most stocks in the sector have (or the weighted average recommendation of the stocks under coverage is) a neutral absolute recommendation.

A "Bearish" rating means most stocks in the sector have (or the weighted average recommendation of the stocks under coverage is) a negative absolute recommendation.

**DISCLAIMERS:**

This publication contains material that has been prepared by Krungsri Securities Public Company Limited, Bangkok, Thailand. This material is (i) for your private information, and we are not soliciting any action based upon it; (ii) not to be construed as an offer to sell or a solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal; and (iii) is based upon information that we consider reliable, but we do not represent that it is accurate or complete, and it should not be relied upon as such. Opinions expressed are current opinions as of the date appearing on this material only and the information, including the opinions contained herein are subject to change without notice. We may from time to time perform investment banking or other services (including acting as advisor, manager or lender) for, or solicit investment banking or other business from, companies mentioned herein. We, our or any of their officers, directors and employees, including persons involved in the preparation or issuance of this material may, from time to time, have long or short positions in, and buy or sell (or make a market in), the securities, or derivatives (including options) thereof, of companies mentioned herein. We, our or any of their officers, directors and employees may, to the extent it is permitted by applicable law, have acted upon or used this material, prior to or immediately following its publication.
