## What's new?

- We project a 2Q24 normalized (norm) profit of THB70mn (US\$1.9mn), growing a healthy +21% YoY from the tourism recovery. Norm profit will fall 6% QoQ due to seasonality.
- In 2H24, we expect norm profit to grow HoH and YoY every quarter. Even so, growth will be softer as positive impacts from full country-re-openings have been completely realized.

## **Our view**

- We adjust down our 2024 norm profit forecast by 10% to THB310mn (+18% YoY) thanks chiefly to the upward adjustment of its tax rate to 20%. It will pay taxes at a normal rate throughout 2024 (we had expected 20% in 2H24).
- Following the revision to our estimate, our 12-month target price to the end of 2024 is adjusted to THB8.70 (US\$0.24), which offers a generous upside of +34.9%. We upgrade to BUY.

Profit in 2Q24 will grow well YoY - Cheap P/E

#### Norm profit in 2Q24 is expected to grow a healthy +21% YoY

We project a 2Q24 norm profit of THB70mn, growing a robust 21% YoY alongside the recovery of the tourism sector. In particular, the number of tourists from prime regions, namely China, Taiwan, and Hong Kong (which comprise 35% of the total inbound tourist number), has been recovering strongly. However, its norm profit will slip slightly 6% QoQ due to seasonal factors and a rise in its SG&A expenses for accommodating the opening of new branches in 2H24. Highlights are as follows: i) Its spa service revenue is projected to be THB360mn (-2% QoQ, +8% YoY), dropping slightly QoQ alongside its U-rate, which is expected to be 81%, down from 83% in 1Q24, alongside a QoQ slowdown in tourist arrivals due to the low season. ii) Its product sales revenue is estimated to be THB25mn (+0% QoQ, +9% YoY). iii) Its GPM in 2Q24 is expected at 32.8% (-62bps QoQ, +349bps YoY), improving YoY due to increased economies of scale alongside the revenue growth. iv) Its SG&A expenses are projected to be THB37mn (+1% QoQ, +5% YoY).

#### We project profit in 2H24 will grow HoH – Forecast for 2024 revised down

We estimate its 2H24 earnings may grow HoH and YoY due to the possible recovery of the foreign tourist numbers MoM throughout 2H24. Therefore, we believe the tourist numbers will potentially grow HoH. Such a scenario will bolster SPA's 2H24 earnings further as foreign customers currently contribute 70% of its revenue (its revenue proportion has returned close to pre-Covid-19 levels).

If 2Q24 result is in line, its norm profit in 1H24 will comprise 42% of our earlier full-year forecast. Even if its earnings in 2H24 are projected to grow HoH, in order to keep our projection more conservative, we have revised down our 2024 norm profit by 10% to THB310mn (+18% YoY) primarily due to an upward revision of our tax rate assumption to 20% (SPA has paid taxes at a normal rate since 1Q24, while we had previously expected it would do so in 2H24).

## SPA has notified SET of plan to operate spa businesses at three hotels in 3Q24

Yesterday (July 18), SPA notified the SET of its plan to launch spa services at three Holiday Inn and Centara hotels, which are expected to happen in 3Q24. We have a positive view due to the following reasons: i) opening another three branches (from the previous plan of five branches) should make its revenue growth plan in 2024 at 15-20% YoY more valid. Such growth is close to our current estimate. Opening managed branches requires smaller capital than opening standalone branches. ii) We estimate this is a positive sign and points to the possibility that it may plan to aggressively expand its branches in the future.

## Upgrade to BUY with a new TP of THB8.70

Following the adjustment of our estimates, our TP to the end of 2024 is lowered to THB8.70 (based on the same P/E of 36x, which is -0.75SD to its five-year average before Covid-19). SPA is trading at a P/E in 2024 of 26.5x, which is -2SD to its five-year average during the pre-Covid-19 period, reflecting limited downside. We expect its norm profit will gain over the next three years (2024-2026) at a CAGR of 21%. Its current P/E aligns with its earnings growth. We upgrade our recommendation to BUY. Listing on the SET is expected to occur in 3Q24.

## Risk

Key risks are: lower-than-expected tourist numbers, especially from foreign arrivals; new Covid-19 outbreak; and global recession.
