Message from Chairwoman

Dear Shareholders of Siam Wellness Group Public Company Limited [SPA],

On behalf of the Board of Directors of Siam Wellness Group Public Company Limited [SPA], I would like to sincerely thank all of the shareholders for your trust and support in our company. In the year 2021, the COVID-19 epidemic became more severe leading to the 2nd wave of outbreaks in January, the 3rd wave in April - June, and the 4th wave with new variants (Delta) in July - September causing a slowdown of the economy in the country and around the world. The tourism industry has been heavily impacted as foreign tourists, who are our key target customer segment, cannot travel to Thailand. Moreover, all branches of Spa were temporarily shut down after the Notification to close spas and massages throughout Thailand by resolution of the Cabinet for over 6 months. Thus, resulting in continued net operating loss. In 2021, the total revenue is 174.94 million baht, an increase of 59.62% from 2020 and the total net loss is 286.72 million baht, an increase of 37.13% from 2020.

In 2021, Siam Wellness Group Public Company Limited focused on creating new customer experiences with confidence and safety in the New Normal era after the highest number of infected people per day recorded. We are the first spa to offer the COVID-19 Saliva ATK test (test by taking saliva samples) for every customers and daily test for our frontline staff (before service commencement) after the Reopening on October 1. We also launched a new Customer Relationship Management (CRM) program, WellnessMe, a loyalty program for customers using the services under the Siam Wellness Group in order to maintain the existing customer base and increase the new loyal customer base.

In terms of Corporate Governance, we are honored to receive the Outstanding Investor Relations Awards for Listed Company in mai at SET Awards 2021 and Best CFO-mai at IAA Awards for Listed Companies 2020. Moreover, Thai Investors Association has rated our Annual General Meeting of Shareholders as 98 points out of 100 points.

Lastly, I would like to sincerely thank our management and staff for their contributions to the Company in the challenging time as well as our advisors for their continuous support for the Company to overcome this crisis. These will be a great willpower and encouragement for the Company to continue to achieve its business vision of providing accessible wellness services rooted in Thai wisdom & hospitality so that people have better well-being

On behalf of the Board of Directors
Yours sincerely,

(Mrs. Pranee Suphawanakiat)

There are marketing activities in the form of communication. save cost efficient and continuous

◆ Build good relationship with customers, business, partners and society.

The company has set up an online sales system. so that the management and marketing departments can view, analyze, follow up with convenience, speed and up-to-date (Real-time). In addition, marketing goals are set. Sales targets and continuous sales comparisons are made in order to formulate an appropriate strategy.

The company has also managed to make customer information, check, follow up and review. customer change continuously which will receive the Company's newsletter via E-mail Marketing. various promotions, etc., which are considered as another way to build relationships with customers continuously (Customer Relationship Management)

The Company has also conducted market research and customer research by conducting Market Research for our own customers (Current User) and target groups. (TargetGroup) continuously through companies with expertise in this area. (Outsourcing)

3.2 Competitive Landscape

In the spa business, Siam Wellness Group maintains its position as a leader in the spa business. (Currently, there are more than 60 branches in the country, penetrating a variety of customer groups) compared to the number of branches and sales, with the 2nd and 3rd ranks having about 10 branches, only in large cities such as Bangkok and Pattaya, which mainly single target customer groups. Most of the players are middle and small players whom have market share less than 1 percent (see details in the competition conditions and industrial conditions)

3.3 Target Customer

The Company has a majority of foreign customers, mostly coming from Asia such as China, Hong Kong, Taiwan, Japan, South Korea, Singapore, Malaysia and Europe. The target is F.I.T. (Free Independent Travellers) who travel as a couple, with family or with friends. The Company has made an analysis of the target customers.

But due to the COVID-19 crisis, tourists were unable to travel to Thailand for two consecutive years, the company has adjusted by increasing sales Marketing and public relations with local customers, resulting in 2021, Thai customers account for more than 90 percent of all customers. The rest are foreign customers residing or working in Thailand (Ex-pat) and foreign customers traveling to Thailand under the Sandbox and Test & Go projects.

According to target customer analysis, the customers are divided into 3 main principal groups based on the income according to the service format and the brand positioning, that is to say:

Customer Group	Income per month (Baht)	Brand of Service
1. A- to A+	>75,000	RarinJinda Wellness Spa
2. B to A-	30,000 – 75,000	Let's Relax / Stretch me /
3. C+ to B+	15,000 – 50,000	Dr. Spiller Baan Suan Massage

3.4 Distribution Channels

Majority of the Company's customers are foreigners and eventually turning to local consumers . Our spa brands have been widespread from Word of Mouth to various media such as in magazines and participations in various spa booth events both domestic and abroad with principal objective to publicize the Company's spa business; therefore, the Company's spa brands become well-known among the group of foreign tourists and locals. The overall distribution channels of the Company are summarized as follows:

1. Distribution through the service booking system via the Internet.
2. Direct sale to the customers.
3. Distribution through agents.

3.5 Price Determination

The Company fixes the price by calculation based on cost of lease of the premises or the depreciation in the case of the construction of a building for use in the operation of the business plus personnel labor cost and incidental expenses coupled with price comparison of the competitor's spa and wellness business in combination with the marketing analysis as to determine the price strategy, taking into account surrounding factors concerned such as the location of the spa business, marketing opportunities, groups of target customers and the operating costs.

3.6 Factors Affecting Competition

The Spa and wellness business makes the difference in each provider of service in terms of location, the location of the shop; the convenience of travel, the vicinity of popular tourist attractions in Thailand. The provision of good service for the masseur or stretching specialists who provide service, the experience of the provider of service, the quality of service and trust from the customers, the management of the Group of Companies therefore considers the factors affecting the competition in the business to be used as a strategy as to create the difference and to promote the strength for business competition of the Group of Companies as follows:

1. Experience and Professionalism in the Conduct of Business

As the Company has had more than 20 years of spa business experience, it is able to offer various types of massage service to be provided by able and skilled therapist staff that has been trained properly according to the school's training course of the subsidiary company (SWE) in tandem with the premium grade spa products of the subsidiary company (SWL) to create confidence in the consumers and to effectively respond to their needs. This is to make a good impression and create brand loyalty to the business and to the goods. When the customers are impressed with the goods, they are able to buy more for further consumption, thus, resulting in increased distribution of the products for the Group of Companies.

2. Location

The choice of the location for spa business, for "RarinJinda Wellness Spa", the Company would choose the location inside the 5-stars hotel which matches the targeted customer group. The customer prefers premium services with one-on-one service and seeks treatments that harmonize all life senses. For "Let's Relax", "Stretch me" and "Dr. Spiller" the locations are chosen with convenience and the vicinity of tourist attractions factor. For example, for the branches in Bangkok, the Company would choose a location of the spa to be near to the BTS station. For the branches in the provinces of tourist attraction, they will be located in the vicinity of a tourist attraction or a department store. For "Baan Suan Massage", the location is chosen in main streets with highly populated area of middle class with great sight.

3. Creation of the difference in terms of quality

To use the spa service for relaxation and for healthcare due to stress and health problem caused by socio-economic condition and current business competition, the Company therefore provides service that emphasizes safety and reliability when providing the service as the principal service of the spa and wellness is involved massaging. Each type of massage or stretching requires contacts with various parts of the body. As for RarinJinda Wellness Spa, emphasis will be made on the provision of service for relaxation and massage with full format of services of world standard with integration of new spa technology such as Quartz Bed, Hydrotherapy Pool and Vichy Shower combined with Thai massage science in tandem with the use of herbs.

4. Sales Promotion

The Company arranges for sales promotion such as Loyalty Program offering special price discounts to encourage the customers to decide tentatively to use the spa service with increased ease and to help increase the rate of service use during the tourist Low Season and there is an organized sales promotion during the period of publicity campaign in various tourist events both domestically and abroad with offers of discount coupons through magazines.

4. Industry Situation and Competition

4.1 Industry situation

Before COVID-19, the global spa industry grew 8.7 percent year-on-year, reaching \$111 billion in revenues at 165,714 spas worldwide, but in the face of the COVID-19 crisis. As a result, revenue fell -39%. However, the health and beauty industry There is still a trend to improve after the Covid-19 crisis.

Emergence of covid-19 and an order to announce the closure of the spa establishment for health by the Center for Covid-19 Situation Administration (CCSA) and the governor's order Province for a period of more than 10 months in four outbreaks in the past two years, the spa industry, which is a business with high and close contact between Service providers and clients were hit hard in 2020-2021, revenue continued to decline and spa establishments dropped to 160,100, with the loss of more than 4,000 spas worldwide.

According to the data of the Thai Spa Association, in 2020, income has dropped -39% from previous period since we have the Health Establishment Act B.E. There are about 9,000 licenses from 2013, which is more than 3,000. We are number 16 in the world and today ranked At the same time, about 30 percent of the 9,000 spas are closed today.

Thailand recognizes the importance of Tourism industry as one of the major driver of Thailand's economy. In 2017, Tourism generated 2.75 trillion bahts in Revenue and ranked 34 from 136 in Travel & Tourism Competitiveness Index. This illustrates that the development of Tourism business in Thailand has been efficient. However, with the rapid changes in the World Environment and consumer behavior, Thailand's tourism sector shall adjust itself and develop to maintain its competitiveness.

4.2 Industry trends and future competitive conditions

The adjustment of the establishment to the New Normal era, including the rate of vaccination against COVID-19 of the population and the opening of the country welcoming tourists again in the form of Sandbox and Test & Go. In the second half of 2021, the spa business is now reviving. It is expected that The spa business will see record global growth of around 17% every year through 2025, and revenue will more than double to around \$150.5 billion. which this time is important to see which sector demand is heading. Personnel who will come to help support must be qualified personnel to ensure high quality tourists

"Wellness matters". Today people in the world have changed, self care behavior becomes more evident. The potential of Thailand still has many opportunities in many areas, whether in the South, North, Northeast or the Central Region, diversity is a key selling point. If jointly create, it will help uplift the country's economy and confidence.

The increasing trend of health care for Thai people lead spa business to expand out of the hotel and expanding rapidly in business and tourist areas under the concept of providing a variety of services. It's eye-catching that the spa business will be one of the health services business with high growth potential and revenue from the spa business in the tourism market is expected to expand continuously because demand tends to industry growth "Tourism" that the government has continuously promoted and supported. It is also one of the health service businesses that the government has targeted to make Thailand the Wellness Capital of Asia.

4.3 Market Value of the Spa Business

The overall market of the World's Spa Industry has been increasing from 19 trillions baht to 27 trillions bahts today as local and foreign consumers are becoming more health-conscious. Thailand's Spa Industry has been growing faster than peers especially in Spa and Beauty sector which is the result in growing tourist numbers and unique Thai herbal products.

Amount of over 3.5 billion baht per year distributed in the Thai spa business becomes a point of interest for the government to want to upgrade the Thai spa industry to international standards. The players hope to use the strengths of diverse natural resources to help raise the level of income for people in the nation from upstream, Mid and downstream. Through a comprehensive service business called "spa", the relevant departments have combined to develop the potential of the industry leaders to achieve the target.

Thai spa and massage business is considered one of the industries that are important and driving the national economy. Also creating a career for general people to earn income. At the same time, it also generates income, including other industries that are linked in the process. Spa from upstream to downstream in many agricultural and tourism industries.

Most recently, on 12 December 2019, a joint committee meeting between the governments under the Convention on the Protection of Intangible Cultural Heritage of The 14th UNESCO, 8-14 December 2019 in Bogota, Colombia Announcement of the results of the consideration of the registration of the intangible cultural heritage in 2019, totaling 51 items and Thai massage proposed by Thailand has received approval to register in the said group It is the second program following Khon which was registered at the end of 2018, with Thai massage certified by UNESCO with the qualifications meeting the criteria. It is a wisdom that has developed at the family and agricultural level. Continuous development until it is a science of health care that uses hands or parts of the body. To adjust the power and structure of the body without using medication Reflecting the creative ability of humans Which will make Thai massage one of the tourism products and services that will be popular for foreign tourists.

4.4 Analysis of the market value of Thai spa business according to the compilation of data by the relevant organizations, namely,

Data from the World Health Institute Showed that Thailand's Health tourism sector creates spending over \$ 12 billion, or more than 357 billion baht. In 2017, more than Indonesia's and Malaysia's spending together in this industry. It also employs about 530,000 directly, accounting for approximately 1.4% of the country's total employment rate and 2.6% of Thailand's annual gross domestic product (GDP).

While the Ministry of Public Health estimated that the Thai massage, spa and medical businesses that make up the Wellness Tourism industry are valued at approximately \$ 1.3 billion, or more than 40 billion baht, out of approximately 10,000 Thai massage centers and 2,800 luxury spas.

Thai Spa Association revealed to the "Thansettakij" that the number of licensed spa operators is 8 thousands, and the number of trained and licensed spa operators is 1.2 thousand pax. There are 2 times more businesses that have not been registered correctly, although according to the Spa Act 2016 It will require the business owner to have a business license. But found that in practice there is a flabby practice.

5. Procurement of Products or Services

In conducting a spa business, the Company has the operational factors as to acquire the said services, namely,

1. In the matter of acquiring a location to be used for operating the spa business, the space needed for providing service.
2. Therapist staff.
3. Accessories for providing service.
4. The spa products used in the service branches of the Company.

The Company, therefore, procures various factors as follows:

5.1 A location to be used to operate a spa business

The location of the spa business for each branch has importance for choice of use of service by customers. The Company therefore takes into account the said factors by selecting a location of the branch of the spa with convenient communication, ease of travel in the neighborhood of important tourist attractions or is located within a hotel. The location will be arranged to have a good environment and safety including beautiful design and decoration of the branch. These are important factors that would influence the decision to choose the spa service by the customers. Furthermore, the Company is acquiring the area, which is divided into 2 formats as follows:

- **Lease of the space**

Currently, there has been executed the agreement for long-term lease of the area to operate approximately 90% of branches of the spa service. Most of the agreement for lease of the area is a 3-year lease. There is negotiation for renewal of the lease agreement for newly opened branches for around 3-6 years of lease (a 3-year lease with a further 3-year renewal and/or with a further 3-year renewal). This is for worthy returns on investment in terms of decoration for opening the spa branch; but thereafter, generally, the lease agreement can be renewed once for 2-3 years of lease each. Due to good consistent relationship with the lessor, during the past, there was no problem encountered with the renewal of the lease agreement. For some branches, more than 20 years continuing lease is renewed to operate the business. The details are shown in the Table as follows:

2. Marketing

2.1 Characteristics of the customers and target groups of the hotel business

The Company has the ratio of foreign customers to the domestic customers of 80:20. As for the proportion of foreign customers, about 60 percent is the customers from Asia such as from China, Hong Kong, Taiwan, Japan and South Korea. The customers from China form the largest part of the customers group while another 10 percentage is the customers from ASIAN countries and Oceania such as Malaysia, Singapore, Australia and New Zealand and the remaining 10 percent will be customers from Europe and the United States of America

But due to the COVID-19 crisis making tourists unable to travel two consecutive years, the company has adjusted by increasing sales Marketing and public relations with more Thai customers, resulting in 2021, Thai customers account for more than 90 percent of all customers. The rest are foreign customers residing or working in Thailand (Ex-pat) and foreign customers traveling to Thailand under the Sandbox and Test & Go projects

2.2 Customer Segment

With its Luxury Boutique Hotel service being provided by RarinJinda Wellness Spa Resort which is equivalent to a 5-star hotel comprising luxury rooms complete with various amenities and conveniences, the target customers group therefore for the business will be those with high income, e.g high level staff of the company, the owners of SME businesses including the owners of large-sized business to be in agreement with the price of the guest rooms ranging from 6,500 Baht to 27,000 Baht per month.

2.3 Distribution and Distribution Channel of the Hotel Business

The distribution and the distribution channel for customers group of RarinJinda Wellness Spa Resort can be divided as follows:

- 1) Distribution via the room booking system through the Internet
- 2) Distribution via the distribution agents
- 3) Distribution via the Sales and Marketing Department.

2.4 Competition Strategy of the Hotel Business

Price Strategy

For the pricing of guest rooms of SWR, as the Group of Companies is positioning its business as a 5-star Luxury Boutique Hotel by focusing on the customers group having a health awareness lifestyle with the introduction of spa service including Healthy Food for health as well as the service and the privacy of the 5-star hotel standard; the Company therefore opts for the Price Skimming strategy as to create an image of being a luxury 5-star boutique hotel and apply the strategy of price adjustment predicating upon the tourist season and Occupancy Rate with the price for walk-in customers at 6,500 – 27,000 Bhat per night, depending on the size of the room and interior decoration.

The Strategy to Make the Difference in Terms of Quality and Products

SWR is characterized by creating the difference in terms of quality and products from the hotel on the same premises as to provide complete services to foreign and Thai tourists on the premises of the hotel. This is a strategy that enables the provision of full-cycle services on the premises of SWR.

1. Emphasizing service to be provided to lovers of good health and hygiene.
2. Having the place centrally located in the middle of Chiangmai town; it is convenient, close to the Night Bazaar Market and is only a 15-minute drive to the Airport. Moreover, beauty is emphasized with a private balcony overlooking the swimming pool in the common area, Doi Suthep hlil range and the scenic view of Ping river.
3. Emphasizing decoration with semi-modern style mixed with Thai style incorporating the antiquity or integration of modernism with original Thai style.
4. There is availability of 5-star on the premises of the hotel; it is the most perfect spa of Chiang Mai complete with the latest technology of spa and amenities of high standard, that is, RarinJinda Wellness Spa offering diverse spa services and multi-format therapies by medical specialists and nurses providing consultancy and advice.
5. Providing service of health food by Deck 1 restaurant which offers the Healthy Food cuisine for health.

3. Procurement of Products or Services

For the purpose of running hotel business and restaurant of SWR, SWR enters into a sub-lease of parcel of land for a 30-year lease to operate the hotel business and Deck 1 restaurant. Here are the details of importance:

SUB-LEASE OF LAND AGREEMENT

Contract party: Siam Wellness Group Co.,Ltd. (Sub-lessor) (Currently it changed its name to Siam Wellness Group Plc). RarinJinda Co., Ltd. (Lessee) (currently it changed its name to Siam Wellness Resort Co., Ltd.)

Date of the Contract: 1 January 2013

The Objective of the Sub-lease: To operate the hotel and restaurant businesses.

Ownership of the Building: Both parties agree that the building of the hotel and the restaurant building which were constructed on the land as of the date of entry into this Agreement is the ownership of the sub-lessee without the rental being charged on the said buildings from the sub-lessee throughout the period of the sub-lease; but for the land lease, the rental will be charged.

Sub-lease of the property: Specifically for the land size of 0-3-96 rai on which the building of the hotel Rarin-Jinda Wellness Spa Resort and Deck 1 Restaurant is situated and the right to utilize some space on Baan Ruan Thai. Incidentally, for the building which the Sub-lessee has renovated, constructed or made any addition to the leased property, the Sub-Lessee agrees to become the property of the Sub-Lessor upon the expiry of the lease.

Period of Lease: The overall period of the sub-lease is 30 years with effect from 1 January 2013 to 31 December 2042. Incidentally, if, upon the expiration of the sub-lease, the Sub-lessee wishes to renew the sub-lease, the Sub-lessee must give a written notice of the intention to renew the sub-lease agreement to the Sub-Lessor for information for not less than 3 years prior to the expiry of the Sublease Agreement. If the Sub-lessor wishes to permit the Sub-lessee to continue the sub-lease, both parties agree to allow the various terms and conditions under the new Sub-lease Agreement to be identical to the terms and conditions of this Agreement in every respect except Clause 3 of the Agreement: Period of Sub-lease and Clause 4 re: The sub-lease rental payment, in respect of which there will be further mutual agreement in writing.

Sub-lease Rental: The rental payment will be made on a monthly basis subject to rental adjustment to be made by the Sub-Lessor according to the market situation, but not exceeding 15 percent of the sub-lease rental effective for every 3 years.

Termination of the Agreement: The lease agreement will be terminated in the following cases:

- Upon the expiration of the sub-lease and there is no exercise of the right to renew the sub-lease according to the terms and conditions of this Agreement.
- Upon the parties mutually agreeing voluntarily to terminate this Agreement.
- When the land is expropriated or the leased property are damaged to the extent that they are rendered useless according to the objective of the lease under this Agreement

4. Situation of the Industry and Competition

4.1 Situation of the industry

The Thai economy as a whole is likely to expand below its potential and lower than previously estimated. It is expected to grow by 2.5 percent. The volume of merchandise exports is likely to recover slower than expected. in line with the decelerating global trade volume from trade protectionism including structural changes of the Thai economy that affect the export sector. Meanwhile, public spending and private investment are likely to expand at a lower rate than previously assessed. However, private consumption in 2019 expanded better than previously assessed due to the positive effects of short-term economic stimulus measures from the government. However, it is likely to slow down in 2020 due to the slowdown in household income and drought. In 2021, the Thai economy is expected to continue to expand following the PPP projects and some government investment projects that have been postponed in the year 2021

The Tourism Authority of Thailand (TAT) has set a target for the income of the Thai tourism sector at the end of 2019 that in 2020, Thailand will have a total tourism income of 3.18 trillion baht composed of (1) International market 2.02 trillion baht from 40.8 million foreign tourists and (2) Domestic market 1.16 trillion baht from 172 million Thai tourists – times/

Due to the coronavirus epidemic (COVID-19) crisis, TAT re-evaluates the situation by establishing the TAT Tourism Recovery Tracker. It estimated 2020's tourism income will be 8.3 hundred billion baht which is divided into (1) International markets of approximately 3.3 hundred billion baht, out of 6.7 million foreign tourists and and (2) Domestic markets Thai travel in Thailand worth about 500 billion baht from the travel of about 95 million Thai tourists - times

At the same time, the situation and income of Thailand's tourism sector for 2021 is expected to generate approximately 1.2 trillion baht in total tourism income, approximately 500 billion baht from overseas markets, approximately 10 Millions foreign tourists and Thai market, about 7 hundred million baht in Thailand from traveling 120 million people - times. Foreign tourists will start to return in the second half of 2021 according to the Overseas Office of TAT. They found that In many countries there is already demand for travel. And most still see Thailand as the top 10 destinations that they are interested in

In addition, the TAT Tourism Recovery Tracker predicts tourism sector revenues will move to 2.5 trillion baht in 2022 or return about 80% of total revenue in 2020, with foreign market revenue expected 1.3 trillion baht from 20.8 million foreign tourists and the domestic market, about 1.2 trillion baht from domestic tourism, 180 million people – times.

However, the tourist group still has to depend on the public health measures to be opened to foreign tourists. Vaccine progress Including the policy of the country of origin whether his people are allowed to leave the country or not.

4.2 Overview of the Competition

Based on the data shown above, it can be seen that although the number of tourists is on the increasing trend, in particular, among the groups of foreign tourists, but the number of places of accommodations and hotels are continuously growing at the higher rate is spurring high competition for the hotel business in Chiang Mai. For survival of the business, therefore, the operators must readjust the operation plan or various strategies as to maintain the level of profitability of the business. The format of competition which has become increasingly more intense is the price cut of the guest room, the competition in the aspect of the service quality, the granting of privileges for using other services of the hotel, etc.

Currently, the increase in the number of boutique hotels undoubtedly has spurred high competition in the market as well as new market in the players such as Airbnb and Homestays. However, in terms of the characteristics of the operation of the boutique hotel which emphasizes the format of being a small-sized luxury hotel, the importance is attached to the prominence of the architecture, the provision of service with close attention from the staff and the presentation of the story through the architecture, the provision of service of the boutique hotel must be able to respond to the lifestyle of the potential guests so that it serves as a place to reflect the personality and the format of living of the potential guests. Therefore most of the boutique hotels do not place emphasis on the price competition; but the emphasis is mainly placed on the quality, the standard and the provision of service. Each hotel has different sales pitch depending on the lifestyle of each customer.

Therefore, the stakeholders should also take into account other risk factors which may befall the Company over and above the risk factors appeared in this Document.

Risk from the coronavirus outbreak

In order to prevent the spread of the COVID-19 virus, businesses have been affected, such as a reduction in spending, A slowdown in the tourism sector from the number of foreign tourists, Economic slowdown and the declining purchasing power of consumers etc. The severity of the impact on spa businesses, a business that is closely contact between service providers and recipients, and there are limited services located in the branch locations. Business still tend to face critical challenges for a while until there is a vaccine that helps reduce the spread of COVID-19.

Risks from changing consumer behavior

The world is in a rapidly changing and intense. The coronavirus outbreak is one of the factors that accelerate digital disruption, such as online shopping on an E-Commerce platform or an E-Marketplace, Digital Payments, Cashless Society, Market Growth, Online Delivery, etc. These motivate brands to bring themselves online to increase marketing opportunities and go online, not just sales. But also, to gain consumer data base in order to make the brand well known to consumers and use it in marketing to increase sales through repeated purchase. Expand customer base and use Big Data to manage various fields more efficiently. Paying attention to hygiene has become a common routine for consumers.

Risk from the Fluctuation of Tourism Industry

For the operation of the spa and hotel businesses of the Company and of the subsidiary companies, there are major groups of foreign tourists in whom there are some factors impacting the confidence in travel for tourism which the Company cannot control such as terrorism, epidemic of the disease, natural disaster, civil commotions within the country and global economic recession, etc. The said impact has had comprehensive effect not only in Thailand alone, but is spread to tourism industry in other countries. The Company has a policy of managing the said risk by way of spreading the business along principal tourist attractions of the country to reduce risk in the event of any particular tourist attraction is facing the problem and has introduced a business plan as to increase the proportion of domestic customers in order to reduce risk of relying on any particular group of the customers.

Risk from Competition with the Competitors in the Principal Business

Siam Wellness Group Plc. operates the health spa business. Moreover, the Company has also had subsidiary company, that is, Siam Wellness Resort Co., Ltd., operating the hotel and restaurant businesses in Chiangmai with many competitors. The Company laid down its strategy to create the difference versus its competitors in terms of premises, service, raw materials, products and technology by focusing on continuing development of innovation as to create the experience for the customers with impression in using the service unique to each brand of the Company.

Competition in Spa Business

Currently, the spa business is fraught with high competition from the downstream to the upstream markets emphasizing the price competition which may impact the earning and profit of the Company. However, the Company is positioning its service to compete with the upstream market, but with the pricing that is more worthwhile than its competitors, which are 5-star hotels as well new players in the field such as Home Massage or Office Massage, which could potentially become competitor. The setting up of the place of service exactly at the point to the target market with the convenience of travel, that is, in the proximity of the mass transit system or tourist attractions. Moreover, the Company has had the time booking for service and payment system directly via the Internet. The system enables the Company to plan the personnel administration very effectively. The Company is convinced that with the said strategy, the Company would gain a competitive advantage against its competitors in the spa business.

Competition in the Hotel Business

The Company has its subsidiary, that is, Siam Wellness Resort Co., Ltd. operating the hotel and restaurant businesses in Chiangmai province in which there are numerous competitors. Currently, the tourism industry has increased in competition with more opening of hotels by various operators in Chiangmai resulting in price competition, which may impact on the earning and profit of the Company. Moreover, there are new players in the field such as AirBnB. However, the Company is convinced that with its strategy emphasizing the provision of specific service in the line of the spa and wellness business with a limited number of rooms and avoidance of price competition coupled with a marketing plan and efficient management of cost will enable Siam Wellness Resort Co., Ltd. to compete with its competitors. The salient point of RarinJinda Wellness Spa Resort is its determination to allow the customers to be in touch with the culture and tradition of Chiangmai integrated with leading therapeutic spa technology and unique quality of service and various amenities.

Risk Due to Renewal of Lease Agreement

Lease with the Outsider

Mostly, the Company would use the method of leasing the space to operate its spa business if the said lease agreement is not renewed, the Company may risk losing its income from the Company's branches. However, the Company would enter into an agreement before the commencement of the Lease Agreement to enable it to renew the Lease Agreement for at least about 9 years to 12 years (3 years lease to renew for another 3 years then another 3 years and/or to renew for 3 years) to reduce risk of investment in the leased branch. Moreover, the lease of the business premises instead of investment to buy the business premise as the Company's own property, it would provide the flexibility for the Company to run its business with the ability to manage the cost for expansion or reduction of service premises as to maximize the returns for the stakeholders. Incidentally, the Company would have good relationship with every lessor by being a good lessee to maintain the leased premises to good order and proper compliance with the terms and conditions of the lease agreement in every respect. Thus, the Company is able to secure the renewal of the lease with the Lessor consistently. If the Company is unable to secure the renewal of the lease agreement for any particular branch, the Company will be able to procure a location to set up a new branch in place of the said unrenewed leased branch.

Lease Agreement with Affiliated Person

For the lease entered into with an affiliated person in the case of the opening of the spa branch and the office of the Company, the Company enters into a lease agreement in the same fashion as the lease with the outsider subject to the terms and conditions of renewal of the lease for about 6 to 9 years (3 years lease to be renewed for 3 years and/or to renew for 3 years). For the land in Chiangmai, the Company has leased it from the affiliated person for use to launch the RarinJinda Wellness Spa, Chiangmai Branch and to allow Siam Wellness Resort Co., Ltd. to sublease the land to operate the hotel and restaurant in Chiangmai. The land will be leased from the affiliated person for 30 years with the terms that the lease is renewable. In this case, a notice will be given to the party to the agreement for acknowledgement and to agree in advance prior to the expiration of the agreement. This is deemed to be a long-term obligation and helps reduce risk against the uncertainty. But, however, upon expiration of the lease agreement, the renewal of the said lease agreement is not possible, the Company will then find necessary to acquire a new parcel of land to continue the business. For this purpose, the Company has entered into a lease agreement with the affiliated person according to said terms and time frame at the fair market rate. The fair price will be assessed by an independent evaluator to assess the proper lease price before it is proposed to the Board for examination and prior approval. Incidentally, the Company had established RarinJinda Wellness Spa Resort as a prototype for operating the Health Resort Hotel. If successful as anticipated and with the availability of sufficient accommodating market, the Company may consider expanding this business into the market and in a suitable time frame. The lease of the said premises enables the Company to reduce investment risk in immovable property and to maximize the efficient management of investment capital. However, nearing the expiration of the lease agreement, the Company would assess the feasibility of the renewal of the lease agreement by taking into account the maximum returns of the stakeholders.

Risk from Dependence on the Executives

The Company operates the business under the management of two founders and executives of the Group of Companies, that is, Mr. Wiboon Utsahajit and Mr. Prasert Jiravanstit, who play an important role in the management of the Company to the extent of being famous and recognized in the industry and enabling the Company to enjoy good operating profit continually. If in the absence of the said executives, it may impact the management of the Company. However, the Company has decentralized the power of operation, the scope of duty and accountability to the executives of various lines according to the ability and experience as to reduce risk from dependence on the said executives. The plan for listing in the mai securities exchange will enable to company to improve the operational system in accordance with the international style continually.

Risk from Lawsuit from the Customers Using the Service

As the Company operates the Health Spa business, in the course of providing service to the customers by the

therapist staff, if they are careless in providing massage service to customer that may cause physical harm to the customer, to prevent the risk of being sued by the customer, the Company therefore takes out the Professional Liability Insurance to cover the expense of being sued to the tune of not exceeding 5,000,000 Baht during the validity of the Insurance Policy. Incidentally, the Company will be liable for the first deductible of not exceeding 200,000 Baht per incident. Moreover, the Company has initiated the briefing to exercise utmost care in providing service to the customer. Since the inception of its business, the Company not yet been sued in the said case at all.

Risk due to Shortage of Therapist Staff

As the Company operates the health spa business which is a business requiring a lot of therapists. The shortage of the said labor may impact the Company's business of material importance. Therefore the Company has arranged for the availability of proper management system of the said personnel by allocating the therapist personnel to be suitable for the number of customers and provision of the staff welfare benefit to the said therapist personnel. This is made possible through providing insurance to cover the minimum wage for the personnel who are working at the newly opened branch of the Company; the provision of personnel living quarters and taking out a life assurance policy for the therapist personnel, etc., as to reassure them and to restore their confidence in the Company so that they will be working with the Company for a long time. Moreover, the Company is opening the massage training school under the subsidiary company as to develop the personnel in accordance with the standard of the Company and to accommodate the expansion of the business and to substitute for those personnel who resigned. This is to ensure that the Company would not have the therapist personnel shortage problem in the future.

Risk of trademark plagiarism

With the company operating a wellness massage under the brand Let's Relax, which is a brand that is widely known and is the most popular brand compared to the other 4 brands of the company amongst Chinese tourists travelling to Thailand. However, Let's Relax is a name that has not yet been registered as a trademark in China. Therefore, there are entrepreneurs in China using the Let's Relax brand for their business, which when the company is aware of the matter, it has already taken legal action. Therefore, there is a tendency for other operators in China to use the Let's Relax brand in their business operations.

Company has priority in managing the Corporate Risk and supports the operations of the Business under ERM Framework and SET's Enterprise Risk Management Policy

The Risk Committee composed of 3 members including

- | | |
|-----------------------------|---|
| 1. Mrs. Kobboon Srichai | Chairwoman of the Risk Committee |
| 2. Mr. Phumiphan Bunjapamai | Member of the Risk Committee |
| 3. Mr. Narun Wiwattanakrai | Member of the Risk Committee and Head of Risk Working Group |

In 2021, there were 2 meetings of the Risk Committee. In each meeting, the Members of the Risk Committee and Members of Risk Working Group jointly assess the different risks to the Company including Strategic Risk, Legal Compliance Risk, Financial Risk, Operational Risk and Asset Risk by reviewing the likelihood of the risk and the impact of the risk . Moreover, the Committee has reviewed the Charter to comply with CG Code 2017

1. Risk Committee Meeting No. 1 on 14 May 2021

The Committee also acknowledged and reviewed the Risk Management Plan of COVID-19 Global Pandemic Action Plan and carefully reviewed the 3rd Wave which caused the Spa and Massage Business to close from April 2021 onwards.

2. Risk Committee Meeting No. 2 on 9 August 2021

The Risk Committee assessed the likelihood of the risk and the impact of the risk for Quarter 3, 2021 and proposed an Action Plan. The Committee considered the Company's risk management plan about the Covid-19 epidemic, the 3rd wave and the 4th wave after the order of the CCSA to temporarily close the massage and spa businesses

in each province from April 2021. The Committee also acknowledged the Operating results after the Reopening of some spa branches under the Phuket Sandbox project. Three Business Scenarios (Best, Base, Worst) were discussed and proposed to the Board of Directors.

In sum, the Company continuously reviews and improves the Risk Management on an annual basis to reflect the internal and external changes to the Companies, considering the current and potential events. Risk Preventive Measures and Efficient Risk Management Policies are implemented to reduce the risk to the level that are acceptable to ensure the smooth operations of the Business as well as the Vision and Mission, both short-term and long-term, are sustainably achieved.

SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED (“The Company”) would like to give details of the Management Discussion and Analysis of the financial statements of the Company and subsidiaries for the 12 months period (“12M21”) ended 31 December 2021 and to explicate the causes of performance that has changed more than 20% from the same period last year. The Company and subsidiaries have the total revenue of 174.94 million baht, a decrease of 258.35 million baht from the same period last year (or a decrease of 59.62%). The net loss is 286.72 million baht, an increase of 77.63 million baht from the same period last year. Net loss is accounted as 171.06 % of sales and services’ revenue. Details as followed:

2021 Financial Highlights

Revenue

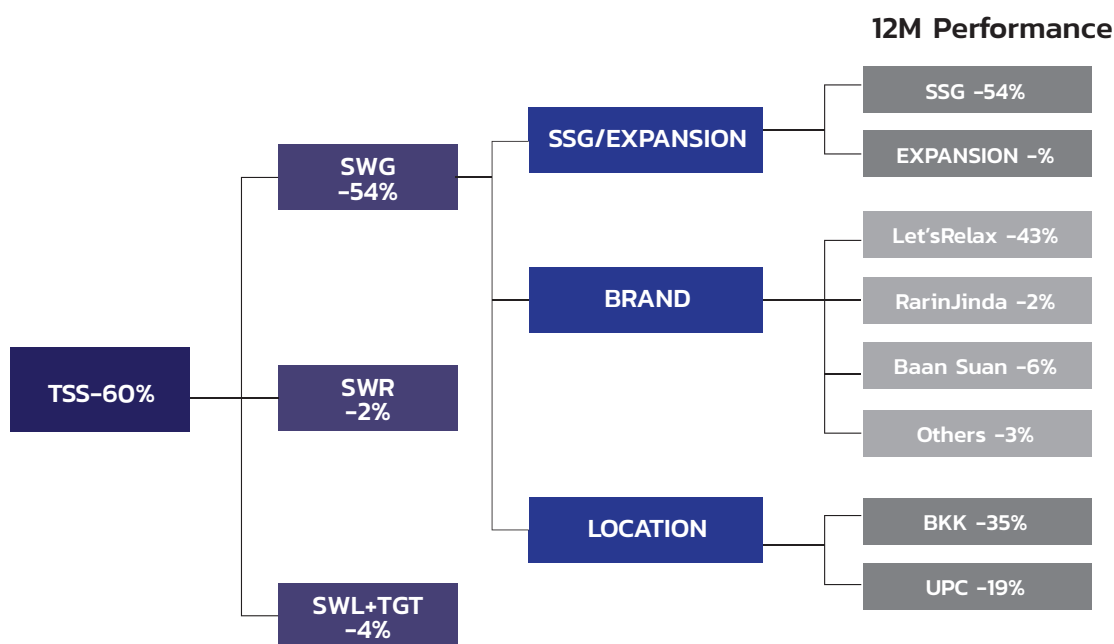

The Company and subsidiaries had total revenue in 2021 of 174.94 million baht, a decrease of 258.35 million baht from the same period last year (or a decrease of 59.62%). The big proportion of revenue came from the spa business, which accounted to 74% of the total revenue. The decrease in revenue is a result from the global COVID-19 pandemic which cause a slowdown in the Economy and has direct effect to major industries including Tourism industry. Closure of International Airport resulted in Tourists, whom are our major source of customers, cannot travel to Thailand. At the end of 2020, there were 2nd wave of COVID-19 spread which continues to 3rd and 4th wave to present, as a result there were temporary closure of spas and massages by Governors in January 2021 and from end of April 2021 to September 2021. On 1st July 2021, Phuket Sandbox Initiative was launched whereby our 5 branches (out of 8 branches) in Phuket opened. Full Spa Reopening started in October (Spas were closed for approximately 6 ½ months in 2021).

As of 31 December 2021, Siam Wellness Group Public Company Limited had a total of 70 branches (65 domestic branches and 5 overseas branches). 2 New Branches were opened and 2 existing branches were closed.

2021 Revenue Summary: The 60% drop in Revenue composed of:

- Siam Wellness Group Public Co.,Ltd (“SWG”), the operator of Spa Business, Revenue dropped 54%
- Siam Wellness Resort Co.,Ltd (“SWR”), the operator of RarinJinda Wellness Spa Resort and Deck1, Revenue dropped 2%
- Siam Wellness Lab Co.,Ltd (“SWL”), the operator of Spa Products Sale, Revenue decreased 4%. This is mainly from the decline in Retail Sales as a result of Spa closure and drop in Specialty Store Sales. However, the Company has increased its own online sales almost 200% compared to 2020.
- The SSG Stores Revenue dropped 54% compared to previous year.

In terms of Revenue by Brands, Let's Relax's Revenue dropped 43%, RarinJinda Wellness Spa's Revenue dropped 2%, Baan Suan Massage Revenue dropped 6% and Other Brands' Revenue dropped 3%.

In terms of Revenue by Locations, Bangkok branches' Revenue dropped 35% and Upcountry branches' Revenue dropped 19%. Hotel & Restaurant Revenue dropped 2%. The Proportion of Hotel & Restaurant Revenue to the Company's 2021 Revenue is 6% as the Spa Business was highly impacted by COVID-19 Pandemic. However, The Occupancy Rate and Average Room Rate have dropped quite a lot.

The Proportion of Spa Product Revenue to the Company's Revenue grew from 14% to 17% even though the Sales in Spa Retail and Specialty Stores have dropped. Our Own Online Channels such as Line, Lazada, Shopee have significant growth.

Cost of Sales and Services

In 2021, the Company and subsidiaries had the cost of sales and services of 318.52 million baht, accounting for 190.03 % of sales and services' revenue. This is a decrease of 188.12 million baht from the same quarter of the previous year (or a decrease of 37.13%). The drop of Cost of Sales and Services was caused by the COVID-19 Global Pandemic resulting in lower variable costs such as Staff Cost, Raw Material Cost, Utilities. Company also managed its Cost of Sales and Services quite well such as negotiation on rental by lower the fixed rental rate or convert fixed rental rate to Revenue Proportion. However, Company also had to face other unavoidable costs such as Depreciation and Other Staff Costs resulting in Gross Loss in 2021.

Selling and Administrative Expenses and Interest Payment

In 2021, the Company and subsidiaries had the selling and administrative expenses of 151.87 million baht, accounted to 90.60% of the revenue from sales and services. This is an increase of 11.71 million baht from the same period last year (or an increase of 8.36%). This is mainly from the increase in Interest Payment from Loan in 2020-2021 and relief for the case where the lessor agrees to reduce the rent of the Federation of Accounting Professions. In addition, the Company has amortized assets and set up an allowance for impairment for 4 branches that are expected to close total 18 million baht. Company has conducted certain cost reducing measures including stringent staff and management cost and Management Pay-cut. Increasing overall expenses coupled with dramatic declines in revenues. causing the proportion of selling and administrative expenses to be higher when compared to the previous year.

Net Loss

In 2021, the Company and subsidiaries had the net loss of 286.72 million baht or accounted 171.06% of the revenue from sales and services. The net loss of the Company and subsidiaries increased 77.64 million baht from the same period last year (or an increase of 37.13%). compared to the same period last year. The is the result of COVID-19 Global Pandemic which cause no tourist arrivals to Thailand since March 2020, however the Company still has to bear unavoidable cost such as Rentals, Staff Costs, Depreciation. Thus, the Net Loss has increased. However, when looking at only the results in the 4th quarter, after the Reopening of business and during the high season, the net loss was significantly reduced compared to the previous quarter in 2021.

As of 31 December 2021, The Company and Subsidiaries had a total asset of 2,257.84 million baht, a decrease of 374.27 million baht from 2020's Assets (a decrease of 14.22%) with details as followed:

- Cash and Cash Equivalent slightly decreased from 114.53 million baht to 109.85 million baht, a decrease of 4.08%) from receiving a new loan from a financial institution to support the situation of the Covid-19 epidemic amounting to 119.15 million baht and withdrawing a loan from the old line of 22 million baht during the cash burn expenses from the operation of about 90 million baht and the principal and interest on bank loans of 24 million baht.
- Trade and Other Receivables decreased from 21.78 million baht to 15.26 million baht (a decrease of 29.92%) resulting from normal operating activities such as Credit Terms to Agent and Overseas Franchisee as Company implemented cash on hand policy. In the Appendix, there were Trade Receivables due over 12 months total 9.81 million baht. The Company set up Allowance for Doubtful accounts of 9.58 million baht according to Accounting Policy and Management Decision. Debts of Trade Receivables over 3 months due have been partially collected.
- Receivables for Shares waiting for Repayment is 9.20 million baht from the Cancellation of Joint Investment in Chaba Elegance Co.,Ltd to the original shareholder. At present, it is in the process of suing the group of existing shareholders to pay for the shares.
- Non-Current Asset held for Sale is 32.29 million baht from Company's Property on sale
- Property, plant and equipment are approximately 42% of Total Assets. The Value of Land, Building and Equipment slightly decreased from 2020's value from Depreciation.
- Right of Use Assets is 945.58 million baht or approximately 42% of Total Assets from TFRS16 Adoption in 2020 Financial Statements Reporting.

The major event that will have impact on the Operating Result is the probability of incoming arrivals of foreign tourists, company's main source of customers, in the coming months. The Company has mitigated this risk by expand into new related business to attract Thai customers and add online channels for the spa products. The Company also give importance in maintaining its cash flow during this ongoing crisis, sufficient for debt repayment and operating activities.

Key Financial Ratio

Ratio	2021	2020	2019
Liquidity Ratio			
Current Ratio	0.54	0.64	1.18
Receivable turnover	9.05	14.47	46.00
Collection period (Days)	40	25	8
Inventory turnover	0.78	0.86	4.00
Holding period (Days)	460	417	97

- 2021 Current Ratio is 0.54, similar to 2020's. If exclude the adoption of TFRS16 Rental Contracts and Long-term Loan from Financial Institutions due within 1 year, 2021 the current ratio is 1.02.
- Receivable Turnover and Collection Period in 2021 increased slightly due to impact from COVID-19.

- Inventory Turnover and Holding Period in 2021 is slightly higher due to the temporary shutdown of branches and significant drop in sales from COVID-19. Some branches remained closed (mainly in tourist location or spa operating in hotel branches). However, the increase in own online sales channel such as Shopee, Lazada and Line and additional promotions leads to shorter Holding Period. In 4Q21, the Holding Period reduced to 258 days.

Return on Asset	-11.73%	-10.08%	17.00%
Return on Equity	-37.63%	-21.00%	23.00%

- Profitability Ratio has significantly dropped as a result of no incoming tourists arrivals, the main source of customer, since March 2020 due to COVID-19 Global Pandemic. The Company still has to bear unavoidable costs resulting in reported Net Loss in 2021.

Ratio	2021	2020	2019
Debt Management Ratio			
Debt to Equity Ratio	2.65	1.95	0.34
Interest coverage Ratio	(7.29)	(10.63)	26.40

- 2021 Debt to Equity Ratio is 2.65, an increase from 1.95 from previous year. The big increase is a result of lease liability within 1 year of expiry total 998.14 million baht after the adoption of TFRS16 Rental Contracts since 2020 Financial Statements. If exclude this, the Debt to Equity Ratio is 1.04 which is close to the Company's ceiling of 1.0. This allows Company to borrow more. The Company is confident that the Company has sufficient cash flow to support Regular Operating Activities.
- Interest Coverage Ratio 2021 is -7.29 as a result of reported Net Loss in 2021.

Legal Dispute

As of December 31, 2021, the Company has a legal dispute or has a lawsuit pending litigation. This may have a significant negative impact on business operations. or have to pay damages worth more than 5% of the Company's shareholders' equity as follows:

1. Civil court case, Black case number Phor.5544/2563, between Siam Wellness Group Public Company Limited (the plaintiff) and Chaba Nail Wellness Spa at the East Company Limited (the 1st defendant), Ms. Pawarisa Chinwongwisan (the 2nd defendant), Mr. Teerawut Chinwongwisan (The 3rd defendant) is a case of breach of contract not paying debts in the amount of 20,312,500 baht due to the company contracting to terminate the business with the three defendants. The Company returned 349,600 shares of Chaba Elegance Company Limited to the three defendants. The three defendants had to pay back the share price to the company in the amount of 93,750,000 baht by dividing the payment in 8 installments, and the three defendants agreed to the 1st defendant by the 2nd defendant to pay 8 checks to pay off each debt in installments. Subsequently, the three defendants defaulted on non-payment of debts in the 4th and 5th installments, totaling 20,000,000 baht. The company therefore asked the three defendants to jointly pay the debt to the company. But the three defendants did not pay the debt. The Company, therefore, filed a lawsuit against the three defendants to the Civil Court on October 30, 2020 to jointly be liable to pay the said debt to the Company. The Civil Court has made an appointment for witness examination on 7 and 8 April 2022.

2. Civil court case, Black case number Phor.3817/2564 between Siam Wellness Group Public Company Limited (the plaintiff) and Chaba Nail Wellness Spa at the East Company Limited (the 1st defendant), Ms. Pawarisa Chinwongwisan (the 2nd defendant), Mr. Teerawut Chinwongwisan (The 3rd defendant) is a lawsuit for breach of contract not paying debts of 25,812,500 baht due to the company contracting to terminate the business with the three defendants. The Company returned 349,600 shares of Chaba Elegance Company Limited to the three defendants. The three defendants

had to pay back the share price to the company in the amount of 93,750,000 baht by dividing the payment in 8 installments, and the three defendants agreed to the 1st defendant by the 2nd defendant to pay 8 checks to pay off each debt in installments. Subsequently, the three defendants defaulted on non-payment of debts in installments 6,7 and 8, totaling 3 installments amounting to 25,000,000. The company therefore demanded that the three defendants jointly pay the debt to the company. But the three defendants did not pay the debt. The Company therefore sued the three defendants to the Civil Court on August 18, 2021 to jointly be liable to pay the said debt to the Company. The Civil Court has scheduled an appointment for witness examination on February 10, 2023.

As for the subsidiary companies, there are Legal disputes of Siam Wellness Resort Co., Ltd. (SWR) is a party or the parties, which are ongoing cases or disputes that may significantly affect SWR's business operations. The details are as follows.

1. Central Administrative Court case, Black Case No. 1261/2559, between Siam Wellness Resort Co., Ltd. (the plaintiff) against the Mayor of Chiang Mai Municipality (Respondent No. 1) and the Appeal Committee in the municipality or other local government areas in Chiang Mai under the Building Control Act B.E. 1979 (Respondent No. 2) was a case requesting the Central Administrative Court to order the revocation of the rulings and orders of both defendants. On March 18, 2016, the 1st defendant has been notified in writing to the directors of the plaintiff in order to suspend the construction of the building, do not use the building and demolish the restaurant Deck One, claiming that there are some constructions outside the title deed area and encroaching on the Ping River, which the plaintiff filed an appeal against the above order against the defendant no. 2 on April 25, 2016 and on July 14, 2016, the defendant at 2 has notified the appeal ruling to the plaintiff by dismissing the appeal of the plaintiff and did not revoke the order of the defendant No. 1, therefore, on August 10, 2016, the plaintiff filed a lawsuit against both defendants. Central Administrative Court requested the Central Administrative Court to issue an order or a judgment revoking the order and decision of the two defendants. Subsequently, on February 27, 2019, the Central Administrative Court ruled not to revoke the mayor's order and grant the plaintiff to demolish the building. The plaintiff filed an appeal with the Supreme Administrative Court on March 17, 2019, and the plaintiff filed an appeal on June 14, 2019 while the case is under consideration by the Supreme Administrative Court.

2. Central Administrative Court Case No. 15/2560 between Siam Wellness Resort Co., Ltd. (the plaintiff) against the Director of the Chiang Mai Regional Harbor Office (Respondent No. 1) and Director of the Regional Harbor Office 1 (Respondent No. 2) requesting the Central Administrative Court to order the revocation of the rulings and orders of both defendants. On July 15, 2016, the 1st defendant has been notified in writing to the directors of the plaintiff to proceed with the demolition of the restaurant, Deck One, claiming that there are some constructions outside the title deed area and encroaching on the Ping River, which the plaintiff filed an appeal against the above order against the defendant no. 2 on August 2, 2016 and on October 4, 2016, the defendant at 2 has notified the appeal ruling to the plaintiff by dismissing the appeal of the plaintiff and did not revoke the order of the defendant No. 1, therefore, on January 6, 2017, the plaintiff filed a lawsuit against both defendants. Central Administrative Court requests the Central Administrative Court to issue an order or a judgment revoking the order and decision of the two defendants. Currently, the case is being considered by the Central Administrative Court.

3. The case of the Chiang Mai Provincial Court, Black Case No. Or. 599/2017 between the Chiang Mai Public Prosecutor (Plaintiff) and Siam Wellness Resort Company Limited (1st defendant) and Mr. Wiboon Utsahachit (2nd defendant) is a criminal case. On February 8, 2017, The plaintiff sued that the two defendants trespassed into the Ping River in the area of Charoenrat Road, Wat Ket Sub-district, Mueang District, Chiang Mai Province Asking to punish the two defendants. The Court of First Instance issued a verdict on February 13, 2019, dismissing the plaintiff's case. Later, the Court of Appeal reversed the judgment on March 12, 2020, requiring both defendants to pay a fine of 400,140 baht each, and the Supreme Court upheld the verdict on the 10th. August 2021

In addition, if the case in the first and second order, the court has a final judgment not revoking the defendant's order, it will affect the financial position and operations of the company in which the company may have to demolish Deck One restaurant from the area. The amount of damage is approximately 14 million baht. As of the end of 2021, the Company has not set aside any provisions or allowances for such damages because it is still in the process of trial in court, which is not yet final. It is expected to take another 2-3 years.

SEC has approved SEC's Corporate Governance Code for listed companies 2017 in replacement of SET's Principles of Good Corporate Governance 2012

In 2017, The Company has actively utilized the Good Corporate Governance to support the Operations of the Company. On 16th December 2017 the Corporate Governance Committee was appointed by the Board of Directors at the Board of Directors' Meeting No. 10 to allow the operations of the Company to be smooth, efficient and complies with the Code of Governance. The Directors, Executives and Staffs have acknowledged and understood the CG Guideline approved by the Corporate Governance Committee's Meeting No. 2 on 5 October 2018 which will act as Guideline.

Corporate Governance Code for listed company 2017 (CG Code)

The key contents of SEC's Corporate Governance Code for listed companies 2017 has been updated from SET's Principles of Good Corporate Governance 2012 with changes in order and presentation to comply with Board of Directors's role in each business process. Moreover, it added new issues to reflect new thinking or change in marketplace.

1. Strengthen the role of the Chairman of the Board of Directors and separate the role of Board of Directors and Executive Committee divided into 3 parts
 - a. Issues determined by Board of Directors
 - b. Issued determined by both Board of Directors and Executive Committee in which Executive Committee will take action
 - c. Issues that should not be determined by Board of Directors
2. Strengthen the role of the Board of Directors in setting Objectives, Vision and Mission of the Company with responsible parties. This allows the Company to have sustainable goals. Tools include environmental analysis, Matter and Stakeholder analysis and the Culture analysis.

3. Expand the role of the Board of Directors in setting Strategies, Policies, Business Plan and Budget and support the use of innovation and technology to increase the company value including supervising IT Systems
4. Add the Market Sensitive information Policies to avoid potential problems of leaked information
5. Strengthen the role of the Board of Directors in supervising the cash flow, debt control, financial crisis management as well as cash management system and provident funds
6. Strengthen the role of the Board of Directors in understanding the relationship between Shareholders and Executive Committee in decisive role
7. Strengthen the role of the Board of Directors in the role of Chairman. In the event that Chairman and CEO's role are not separated, the Board of Directors may assign the Independent Director to set the Meeting's Agenda as an alternative way to balance the role of Board of Directors and Executive Committee

The Board of Directors shall bring the 8 Guidelines in Section 1 to apply to the Organization to create the sustainable business and in Section 2 which is the additional Guidelines to support Section 1.

Therefore, Company shall set the Operations and Internal Audit Process according the Principles stated above with 5 main topics.

Section 1 The Rights of Shareholders

Section 2 Equitable Treatment

Section 3 Stakeholders

Section 4 Transparency

Section 5 Responsibilities

Section 1: The Rights of Shareholders

Having recognized the shareholders' right to receive correct and complete information on the Company within good time on an equitable treatment basis and to make decisions on major changes that affect the Company. The Board of Directors supports the shareholder's rights with the following policies have been adopted:

1. We will sent an invitation in Thai and English to attend a meeting with the items on the agenda and views of the Board of Directors thereon to shareholders at least 7 or 14 days before the meeting of shareholders, whichever the case may be. Any shareholder who cannot personally attend the meeting can appoint an independent director or any person as a proxy to attend the meeting for and on his behalf, using the proxy appointment form attached to the invitation to attend the meeting. The Company also disclose the Agenda of the Meeting in newspaper in 3 consecutive days at least 3 days before the Meeting. This allows Shareholders to have good preparation for the meeting.

2. We will hold the meeting at the most suitable venue and time to ensure that the shareholders find it convenient to travel. There will be enough time for the meeting to deal with all the items on the agenda. A map will also be provided.

3. Before commencing the meeting, the shareholders will be informed of their rights to vote, express views and raise any questions at the meeting in respect of the items on the agenda. According to the Charter, the Company has assigned a shareholder as a witness of the counting of votes. During meeting, the shareholders will be given equal rights and opportunities to express their views within the time well allocated by the Board Chairman. The directors and executives, including Management and Company Secretary, concerned shall attend the meeting and present to answer questions and respond to enquiries from Shareholders.

4. We will use our website as another communication channel. The news and information will be published on our website. Shareholders can download the invitation to meeting with the items on the agenda well in advance before the day of the meeting so that they will have plenty of time to examine the Company's documents. Independent Auditor's Report

To the Shareholders of Siam Wellness Group Public Company Limited

Opinion

I have audited the accompanying consolidated financial statements of Siam Wellness Group Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at 31 December 2021, and the related consolidated statements of comprehensive income, changes in shareholders' equity and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and have also audited the separate financial statements of Siam Wellness Group Public Company Limited for the same period.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Siam Wellness Group Public Company Limited and its subsidiaries and of Siam Wellness Group Public Company Limited as at 31 December 2021, their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Group in accordance with the *Code of Ethics for Professional Accountants* as issued by the Federation of Accounting Professions as relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Material Uncertainty Related to Going Concern

I draw attention to Note 1.2 to the consolidated financial statements. The business operation of the Group has been affected from the effect of the COVID-19 pandemic in terms of temporary shutdown of spa and hotel business as required by a resolution of the cabinet and the Declaration of Provincial Governors on preventive measures to control the COVID-19. Due to the pandemic of the COVID-19 since March 2020 and new waves in 2021, the Group has continued to temporarily close most of spa branches for nearly the entire period. This is significantly impacting the Group's financial position, operating results, and cash flows at present. The Group's management has assessed the financial impact in respect of an uncertainty of the COVID-19 situation.

As a result of such situation, as at 31 December 2021 the Group had total current liabilities exceeded its total current assets by Baht 171.4 million (the Company only: Baht 212.5 million) and had operating losses for the year ended 31 December 2021 of Baht 286.7 million (the Company only: Baht 271.7 million). The Group had the measures to maintain its cash flow level for debt settlement and for its business operations by negotiation with the lessors to obtain the rental discount for each spa retail stores, and seeking source of funds. The Group believes that there will be the adequate cash flows for settlement of liabilities which to be due within one year.

Furthermore, the management is in the process of implementing a business plan to improve its operations and turn a profit in the future. The management believes that it will be able to continue its operation as a going concern. However, these circumstances may give rise to significant doubts as to the Group's ability to continue its operations as a going concern. This may depend on the outcome of the ability of the Group to achieve its operational plans, and the relief of the COVID-19 pandemic situation in the future.

My opinion is not qualified in respect of this matter.

Key Audit Matter

Key audit matter is the matter that, in my professional judgement, was of most significance in my audit of the financial statements of the current period. This matter was addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on this matter.

I have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report, including in relation to this matter. Accordingly, my audit included the performance of procedures designed to respond to my assessment of the risks of material misstatement of the financial statements. The results of my audit procedures, including the procedures performed to address the matter below, provide the basis for my audit opinion on the accompanying financial statements as a whole.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, key audit matters and how audit procedures respond to each matter are described below.

Revenue from Services

The revenue from services related to spa business of the Company is the main revenue of the Group, representing 73% of total Group's revenues for the year 2021. Such revenue is derived from provision of services to a large number of individual customers through a variety of sales channels and many spa branches for the spa business. Therefore, I addressed the occurrence and accuracy of the revenue from services as a key audit matter.

I have examined the revenue from services by assessing and testing, on a sampling basis, the Company's internal controls with respect to the revenue cycle, understanding the nature of services condition to evaluate the appropriateness of the accounting policy, examining supporting documents, on a sampling basis, for revenue from services transactions occurring during the year and near the end of the accounting period, reviewing credit notes that the Company issued after the period-end, and performing analytical procedures on disaggregated data to detect possible irregularities in revenue from services transactions throughout the period.

Impairment of property, plant and equipment and right-of-use assets

During 2021, the COVID-19 pandemic is still resulting in an economic slowdown and adversely impacting most businesses and industries which also significantly affects the Group's business activities. Such event is an indicator indicates that property, plant and equipment and right-of-use assets of the Group may be impaired. The Group had property, plant and equipment and right-of-use assets representing 84% of total Group's assets. In determining the impairment loss, management had to exercise judgement with respect to determination of the cash-generating unit, financial model, the projections of future operating performance, plans for management of assets of the Group, and determination of an appropriate discount rate and key assumptions. Therefore, I addressed the measurement of allowance for impairment loss of property, plant and equipment and right-of-use assets as a key audit matter.

I have assessed appropriateness of determination of cash-generating unit and the financial model selected by management. I also tested the significant assumptions applied by management in preparing estimates of the cash flows expected to be realised in the future by comparing such assumptions with outside and inside sources and, reviewing the accuracy of past cash flow projections in comparison with actual operating results in order to assess the reliability of the cash flow projections. I also considered the appropriateness of management's assumptions through analysis of the weighted-average cost of discount rate and tested the calculation of the realisable value of property, plant and equipment and right-of-use assets using the selected financial model.

Other Information

Management is responsible for the other information. The other information comprise the information included in annual report of the Group, but does not include the financial statements and my auditor's report thereon. The annual report of the Group is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the annual report of the Group, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance for correction of the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matter communicated with those charged with governance, I determine that matter that was of most significance in the audit of the financial statements of the current period and is therefore the key audit matter. I describe this matter in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

I am responsible for the audit resulting in this independent auditor's report.

Siam Wellness Group Public Company Limited and its subsidiaries

Notes to consolidated financial statements

For the year ended 31 December 2021

1. General information

1.1 General information of the Company

Siam Wellness Group Public Company Limited (“the Company”) was incorporated as limited company under the laws of Thailand on 28 November 2001. The Company operates in Thailand and principally engages in spa services business. Its registered head office is at No. 565, 567 B.U. Place Building, 22nd Floor, Soi Suthiporn, Pracha-Songkroh Road, Dindang, Dindang, Bangkok (2020: No. 483, Soi Suthiporn, Pracha-Songkroh Road, Dindang, Dindang, Bangkok). As at 31 December 2021, the Company has a total of 65 branches in Bangkok and upcountry (2020: 65 branches) and 5 foreign branches according to the franchise agreement (2020: 5 foreign branches).

The Company registered in the Stock Exchange of Thailand on 31 October 2014 and its common shares had been approved to be listed in the MAI (MAI: Market of Alternative Investment).

1.2 Coronavirus disease 2019 Pandemic and fundamental accounting assumptions

The COVID-19 pandemic has resulted in an economic slowdown and adversely impacted most businesses and industries in terms of consumer spending, limited or suspended operations. The business operation of the Group has been affected from the effect of the COVID-19 pandemic in terms of temporary shutdown of spa and hotel business as required by a resolution of the cabinet and the Declaration of Provincial Governors on preventive measures to control the COVID-19. Due to the pandemic of the COVID-19 since March 2020 and new waves in 2021, the Group has continued to temporarily close most of spa branches for nearly the entire period. This is significantly impacting the Group’s financial position, operating results, and cash flows at present. The Group’s management has assessed the financial impact in respect of an uncertainty of the COVID-19 situation.

As a result of such situation, as at 31 December 2021 the Group had total current liabilities exceeded its total current assets by Baht 171.4 million (the Company only: Baht 212.5 million) and had operating losses for the year ended 31 December 2021 of Baht 286.7 million (the Company only: Baht 271.7 million). The Group had the measures to maintain its cash flow level for debt settlement and for its business operations by negotiation with the lessors to obtain the rental discount for each spa retail stores, and seeking source of funds for which in February 2021 and July 2021, the Group got the approval of such credit facilities from the

Bank. In addition, the Group received waiver letter for not complying with such covenants from the bank as discussed in Note 17 to the consolidated financial statements. The Group believes that there will be the adequate cash flows for settlement of such loans and lease liabilities which to be due within one year and for using in its operations. Furthermore, the management is in the process of implementing a business plan to improve its operations and turn a profit in the future. The management believes that it will be able to continue its operation as a going concern.

The management believes that it is appropriate to prepare the Group's financial statements for the year ended 31 December 2021 based on the assumption that the Group will continue its operations as a going concern.

2. Basis of preparation

2.1 The financial statements have been prepared in accordance with Thai Financial Reporting Standards enunciated under the Accounting Professions Act B.E. 2547 and their presentation has been made in compliance with the stipulations of the Notification of the Department of Business Development dated 11 October 2016, issued under the Accounting Act B.E. 2543.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from the Thai language financial statements.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

3. New financial reporting standards

a) Financial reporting standards that became effective in the current year

During the year, the Group has adopted the revised financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements.

Furthermore, the Group elected to adopt the amendments to TFRS 16 Leases relating to COVID-19-related rent concessions. These amendments provide a practical expedient that permits a lessee to not assess whether rent concessions are lease modifications. The practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the conditions are met, i.e., the change in lease payments results in a revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease preceding the change; any reduction in lease payments affects only payments originally due on or before 30 June 2022; and there is no substantive change to other terms and conditions of the lease.

The Group applies the practical expedient to all rent concessions that meet the above conditions and the effects of the application of this expedient, due to resulting changes in payments under leases are recognised in profit or loss for the year ended 31 December 2021, amounting to Baht 160.5 million (the Company only: Baht 159.1 million). There was no impact on the opening balance of retained earnings.

b) Financial reporting standards that became effective for fiscal years beginning on or after 1 January 2022

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2022. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group's financial statements.

4. Significant accounting policies

4.1 Revenue and expense recognition

a) Revenues from contracts with customers

The Group accounts for a contract with a customer when it has entered into an agreement between counter parties that creates enforceable rights and obligations. The Group has to identify its performance obligations and allocate a transaction price to each obligation on an appropriate basis.

Revenue from contracts with customers is recognised when control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services, net of value added tax ("VAT"). Depending on the terms of the contract and the laws that apply to the contract, control of the asset may be transferred over time or at a point in time.

Detail of revenue recognition of the Group are as follows:

Revenue from sale

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. Revenue is measured at the amount of the consideration received or receivable, excluding value added tax, of goods supplied after deducting returns, discounts, allowances and price promotions to customers.

Revenue from spa service

Spa service revenue is recognised at a point in time upon completion of the service.

Revenue from franchise agreement

Initial fee from franchise agreement is recognised throughout the period of the agreement. In addition, monthly revenue sharing is recognised in the amount to which the Company has a right to invoice as it corresponds directly with the franchisee's revenues in accordance with the substance of the relevant franchise agreement.

Revenue from other services that the control of services are transferred to customers at a point in time

The Group recognises revenue from other services that the contract of services are transferred to customers at a point in time upon completion of the services.

บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

Revenue from services and revenue from sales - Customer loyalty programmes

The Group operates a loyalty programme which allows customers to accumulate points when they use the services or purchase products from the Group. The points can then be redeemed for discount of services or products purchase in the future. Certain sales consideration is allocated to the points issued, at their fair value. The fair value of the points issued is deferred and recognised as revenue when the points are redeemed and the Group fulfill their obligations.

b) Interest income

Interest income is calculated using the effective interest method and recognised on an accrual basis. The effective interest rate is applied to the gross carrying amount of a financial asset, unless the financial assets subsequently become credit-impaired when it is applied to the net carrying amount of the financial asset (net of the expected credit loss allowance).

c) Finance cost

Interest expense from financial liabilities at amortised cost is calculated using the effective interest method and recognised on an accrual basis.

d) Other expenses

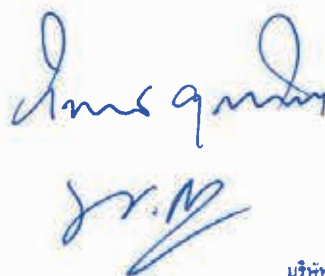

Other expenses are recognised on an accrual basis.

e) Dividend income

Dividend income is recognised when the right to receive the dividends is established.

4.2 Cost to fulfill a contract with customer

The Group recognises costs that relate to satisfied performance obligations in the contract in profit or loss when incurred except that the Group can identify that the costs relate directly to a contract or to an anticipated contract that the Group can specifically identify, the costs generate or enhance resources of the Group that will be used in satisfying performance obligations in the future, and the costs are expected to be recovered. Therefore, the Group recognises an asset from the costs incurred to fulfil a contract and amortised to expenses on a systematic basis that is consistent with the pattern of revenue recognition. An allowance for loss on impairment of assets is recognised to the extent that the carrying amount of assets exceeds the remaining amount of consideration that the entity expects to receive less direct costs.

บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

4.3 Balances of contracts with customers

Contract assets

Trade receivables

Trade receivables are stated at the net realisable value. Allowance for doubtful accounts is provided for the estimated losses that may be incurred in collection of receivables. The allowance is generally based on collection experience and analysis of debt aging.

Contract liabilities

Advance received from customers

The Group recognises a contract liability when the billings to date exceed the cumulative revenue earned which presented under the caption of "Advance received from customers" in the statements of financial position and the Group has an obligation to transfer goods or services to a customer. Contract liabilities are recognised as revenue when the Group fulfils their performance obligations under the contracts.

4.4 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, due cheques which are not yet deposited and all highly liquid investments with an original maturity of three months or less and not subject to withdrawal restrictions.

4.5 Inventories

Inventories are valued at the lower of cost under the first-in, first-out method and net realisable value.

4.6 Non-current assets classified as held for sale

Non-current assets classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

Non-current assets are classified as held for sale when the Company receives economic benefits through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

4.7 Investments in subsidiaries

Investments in subsidiaries are accounted for in the separate financial statements using the cost method.

4.8 Leasehold rights

Leasehold rights on land is stated at cost less accumulated amortisation and allowance for impairment (if any). Amortisation is charged to profit or loss on a straight-line basis over a period of lease.

4.9 Property, plant and equipment/Depreciation

Land is stated at revalued amount. Buildings and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Land is initially recorded at cost on the acquisition date, and subsequently revalued by an independent professional appraiser to its fair value. Revaluations are made with sufficient regularity to ensure that the carrying amount does not differ materially from fair value at the end of reporting period.

Differences arising from the revaluation are dealt with in the financial statements as follows:

- When an asset's carrying amount is increased as a result of a revaluation of the Group's assets, the increase is credited directly to the other comprehensive income and the cumulative increase is recognised in equity under the heading of "Surplus on revaluation of assets". However, a revaluation increase is recognised as income to the extent that it reverses a revaluation decrease in respect of the same asset previously recognised as an expense.
- When an asset's carrying amount is decreased as a result of a revaluation of the Group's assets, the decrease is recognised in profit or loss. However, the revaluation decrease is charged to the other comprehensive income to the extent that it does not exceed an amount already held in "Surplus on revaluation of assets" in respect of the same asset.

Depreciation of plant and equipment is calculated by reference to their costs on the straight-line basis over the following estimated useful lives:

Land improvement	-	5 years
Buildings and building on rental land	-	20 years and a period of lease
Buildings improvement	-	5, 20 years and a period of lease
Furniture, fixtures and office equipment	-	5 years
Motor vehicles	-	5 years

บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

Depreciation is included in determining income.

No depreciation is provided on land and assets under installation.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on disposal of an asset is included in profit or loss when the asset is derecognised.

4.10 Intangible assets

Intangible intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses (if any).

Intangible assets with finite lives are amortised on a systematic basis over the economic useful life and tested for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method of such intangible assets are reviewed at least at each financial year end. The amortisation expense is charged to profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

	<u>Useful lives</u>
Licenses	5 and 10 years
Trademark	10 years
Computer software	5 and 10 years

4.11 Goodwill

Goodwill is initially recorded at cost, which equals to the excess of cost of business combination over the fair value of the net assets acquired. If the fair value of the net assets acquired exceeds the cost of business combination, the excess is immediately recognised as gain in profit or loss.

Goodwill is carried at cost less any accumulated impairment losses. Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the Company's cash generating units (or group of cash-generating units) that are expected to benefit from the synergies of the combination. The Company estimates the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount, an impairment loss is recognised in profit or loss. Impairment losses relating to goodwill cannot be reversed in future periods.

 9
บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

The recoverable amount of each cash generating unit is determined based on a value-in-use calculation, using cash flow projections extracted from financial budgets approved by the management. The cash flow projections based on key assumptions regarding revenue growth rates and discount rates.

4.12 Leases

At inception of contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as a lessee

The Group applied a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. At the commencement date of the lease (i.e. the date the underlying asset is available for use), the Group recognises right-of-use assets representing the right to use underlying assets and lease liabilities based on lease payments.

Right-of-use assets

Right-of-use assets are measured at cost, less accumulated depreciation, any accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities initially recognised, initial direct costs incurred, lease payments made at or before the commencement date of the lease, and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives received.

Depreciation of right-of-use assets are calculated by reference to their costs, on the straight-line basis over the shorter of their estimated useful lives and the lease term.

Land and land improvement	4 - 24 years
Buildings and building improvement	2 - 12 years
Furniture, fixtures and office equipment	3 years

If ownership of the leased asset is transferred to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

10

Lease liabilities

Lease liabilities are measured at the present value of the lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be payable under residual value guarantees. Moreover, the lease payments include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising an option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

The Group discounts the present value of the lease payments by the interest rate implicit in the lease or the Group's incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

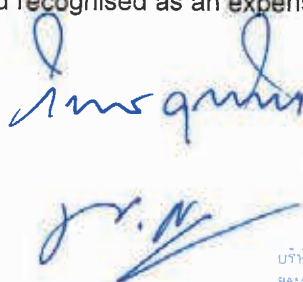

Short-term leases and leases of low-value assets

A lease that has a lease term less than or equal to 12 months from commencement date or a lease of low-value assets is recognised as expenses on a straight-line basis over the lease term.

The Group as a lessor

A lease that transfers substantially all the risks and rewards incidental to ownership of an underlying asset to a lessee is classified as finance leases. As at the commencement date, an asset held under a finance lease is recognised as a receivable at an amount equal to the net investment in the lease or the present value of the lease payments receivable and any unguaranteed residual value. Subsequently, finance income is recognised over the lease term to reflect a constant periodic rate of return on the net investment in the lease.

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset to a lessee. Lease receivables from operating leases is recognised as income in profit or loss on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying assets and recognised as an expense over the lease term on the same basis as the lease income.

4.13 Related party transactions

Related parties comprise individuals or enterprises that control, or are controlled by, the Group, whether directly or indirectly, or which are under common control with the Group.

They also include associated companies and individuals or enterprises which directly or indirectly own a voting interest in the Group that gives them significant influence over the Group, key management personnel, directors, and officers with authority in the planning and direction of the Group's operations.

4.14 Foreign currencies

The consolidated and separate financial statements are presented in Baht, which is also the Company's functional currency.

Transactions in foreign currencies are translated into Baht at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Baht at the exchange rate ruling at the end of reporting period.

Gains and losses on exchange are included in determining income.

4.15 Impairment of non-financial assets

At the end of each reporting period, the Group performs impairment reviews in respect of the property, plant and equipment, right-of-use asset, and other intangible assets whenever events or changes in circumstances indicate that an asset may be impaired. The Group also carries out annual impairment reviews in respect of goodwill. An impairment loss is recognised when the recoverable amount of an asset, which is the higher of the asset's fair value less costs to sell and its value in use, is less than the carrying amount. In determining value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by a valuation model that, based on information available, reflects the amount that the Group could obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the costs of disposal.

An impairment loss is recognised in profit or loss. However, in cases where property, plant and equipment were previously revalued and the revaluation was taken to equity, a part of such impairment is recognised in equity up to the amount of the previous revaluation.

 12
บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

In the assessment of asset impairment (except for goodwill), if there is any indication that previously recognised impairment losses may no longer exist or may have decreased, the Group estimates the asset's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The increased carrying amount of the asset attributable to a reversal of an impairment loss shall not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at a revalued amount, in which case the reversal, which exceeds the carrying amount that would have been determined, is treated as a revaluation increase.

4.16 Employee benefits

Short-term employee benefits

Salaries, wages, bonuses and contributions to the social security fund are recognised as expenses when incurred.

Post-employment benefits

Defined contribution plans

The Company and its employees have jointly established a provident fund. The fund is monthly contributed by employees and by the Company. The fund's assets are held in a separate trust fund and the Company's contributions are recognised as expenses when incurred.

Defined benefit plans

The Group has obligations in respect of the severance payments it must make to employees upon retirement under labor law. The Group treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial techniques, using the projected unit credit method.

Actuarial gains and losses arising from defined benefit plans are recognised immediately in other comprehensive income.

Past service costs are recognised in profit or loss on the earlier of the date of the plan amendment or curtailment and the date that the Group recognises restructuring-related costs.

4.17 Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

4.18 Income tax

Income tax expense represents the sum of corporate income tax currently payable and deferred tax.

Current tax

Current income tax is provided in the accounts at the amount expected to be paid to the taxation authorities, based on taxable profits determined in accordance with tax legislation.

Deferred tax

Deferred income tax is provided on temporary differences between the tax bases of assets and liabilities and their carrying amounts at the end of each reporting period, using the tax rates enacted at the end of the reporting period.

The Group recognised deferred tax liabilities for all taxable temporary differences while they recognised deferred tax assets for all deductible temporary differences and tax losses carried forward to the extent that it is probable that future taxable profit will be available against which such deductible temporary differences and tax losses carried forward can be utilised.

At each reporting date, the Group reviews and reduces the carrying amount of deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

The Group records deferred tax directly to shareholders' equity if the tax relates to items that are recorded directly to shareholders' equity.

4.19 Financial instruments

The Group initially measures financial assets at its fair value plus, in the case of financial assets that are not measured at fair value through profit or loss, transaction costs. However, trade receivables, that do not contain a significant financing are measured at the transaction price as disclosed in the accounting policy relating to revenue recognition.

บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortised cost, fair value through other comprehensive income (“FVOCI”), or fair value through profit or loss (“FVTPL”). The classification of financial assets at initial recognition is driven by the Group’s business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Financial assets at amortised cost

The Group measures financial assets at amortised cost if the financial asset is held in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate (“EIR”) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

Financial assets at FVTPL

Financial assets measured at FVTPL are carried in the statement of financial position at fair value with net changes in fair value recognised in profit or loss.

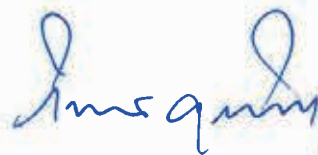

These financial assets include security investments held for trading.

Classification and measurement of financial liabilities

Except for derivative liabilities, at initial recognition the Group’s financial liabilities are recognised at fair value net of transaction costs and classified as liabilities to be subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. In determining amortised cost, the Group takes into account any fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in profit or loss.

Derecognition of financial instruments

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or have been transferred and either the Group has transferred substantially all the risks and rewards of the asset, or the Group has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in profit or loss.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate.

For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure (a lifetime ECL).

The Group considers a significant increase in credit risk to have occurred when contractual payments are more than 30 days past due and considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to have a significant increase in credit risk and to be in default using other internal or external information, such as credit rating of issuers.

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date.

ECLs are calculated based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

4.20 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between buyer and seller (market participants) at the measurement date. The Group applies a quoted market price in an active market to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards. Except in case of no active market of an identical asset or liability or when a quoted market price is not available, the Group measures fair value using valuation technique that are appropriate in the circumstances and maximises the use of relevant observable inputs related to assets and liabilities that are required to be measured at fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy into three levels based on categorise of input to be used in fair value measurement as follows:

- Level 1 - Use of quoted market prices in an active market for such assets or liabilities
- Level 2 - Use of other observable inputs for such assets or liabilities, whether directly or indirectly
- Level 3 - Use of unobservable inputs such as estimates of future cash flows

At the end of each reporting period, the Group determines whether transfers have occurred between levels within the fair value hierarchy for assets and liabilities held at the end of the reporting period that are measured at fair value on a recurring basis.

5. Significant accounting judgements and estimates

The preparation of financial statements in conformity with financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

5.1 Unearned revenue from a customer loyalty program

The Group has launched a customer loyalty program for registered members, under which the customers earn points when using services or making purchases at the specified amount. The points can be redeemed for goods or services. The Group estimates standalone selling price of the option by allocating the transaction price to the performance obligations by reference to the price of goods expected to be provided to the customers if the customers exercise the option, adjusted for the likelihood that the customers would exercise the option. This requires management to make subjective judgements.

5.2 Leases

Determining the lease term with extension and termination options - The Group as a lessee

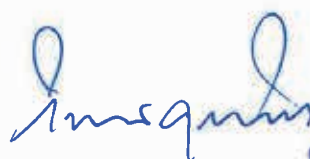

In determining the lease term, the management is required to exercise judgement in assessing whether the Group is reasonably certain to exercise the option to extend or terminate the lease considering all relevant facts and circumstances that create an economic incentive for the Group to exercise either the extension or termination option.

Estimating the incremental borrowing rate - The Group as a lessee

The Group cannot readily determine the interest rate implicit in the lease, therefore, the management is required to exercise judgement in estimating its incremental borrowing rate to discount lease liabilities. The incremental borrowing rate is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment.

Lease classification - The Group as lessor

In determining whether a lease is to be classified as an operating lease or finance lease, the management is required to exercise judgement as to whether significant risk and rewards of ownership of the leased asset has been transferred, taking into consideration terms and conditions of the arrangement.

บริษัท สยามเวลเนส จำกัด (มหาชน)
SIAM WELLNESS PCL PUBLIC COMPANY LIMITED

5.3 Allowance for expected credit losses of trade receivables

In determining an allowance for expected credit losses of trade receivables, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the forecast economic condition for groupings of various customer segments with similar credit risks. The Group's historical credit loss experience and forecast economic conditions may also not be representative of whether a customer will actually default in the future.

5.4 Fair value of financial instruments

In determining the fair value of financial instruments recognised in the statement of financial position that are not actively traded and for which quoted market prices are not readily available, the management exercises judgement, using a variety of valuation techniques and models. The input to these models is taken from observable markets, and includes consideration of credit risk, liquidity, correlation and longer-term volatility of financial instruments. Change in assumptions about these factors could affect the fair value recognised in the statement of financial position and disclosures of fair value hierarchy.

5.5 Property plant and equipment/Depreciation

In determining depreciation of plant and equipment, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes.

The Group measures land at revalued amounts. Such amounts are determined by the independent value using the comparable market approach.

In addition, the management is required to review property, plant and equipment for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

5.6 Goodwill and intangible assets

The initial recognition and measurement of goodwill and intangible assets, and subsequent impairment testing, require management to make estimates of cash flows to be generated by the asset or the cash generating units and to choose a suitable discount rate in order to calculate the present value of those cash flows.

SIAM WELLNESS
บริษัท สยามเวลเนส จำกัด (มหาชน)
SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

5.7 Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of estimate future taxable profits.

5.8 Allowance for impairment of non-financial assets

In determining allowance for impairment of a non-financial asset, the management is required to exercise judgements regarding determination of the recoverable amount of the asset, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs of disposing of the asset. The value in use calculation is based on a discounted cash flow model. The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. These estimates are most relevant to property, plant and equipment, right-of-use assets and goodwill recognised by the Group. The key assumptions used to determine the recoverable amount, including a sensitivity analysis, are disclosed and further explained in Notes 13 and 14 to the consolidated financial statements.

5.9 Post-employment benefits under defined benefit plans

The obligation under the defined benefit is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

9. Share return receivables

On 17 December 2018, the meeting of the Company's Board of Directors No. 7/2018 passed the resolutions approving the acquisition of 349,600 ordinary shares of Chaba Elegance Co., Ltd. which principally engaged in nails polish, hand and foot spa, and eyelash extension business, or 76% of total share capital, in order to beneficially expand the Company's current business. This investment acquisition was approximately amounting to Baht 125 million. The Company made partial payment for the shares totalling Baht 93.75 million on 3 January 2019, 5 February 2019, and 2 May 2019. The Company had the remaining amount of the shares totalling Baht 31.25 million. The Company received shares of Chaba Elegance Co., Ltd. from the former shareholders on 1 January 2019.

Later, on 4 October 2019, the meeting of the Company's Board of Directors No. 7/2019 passed a resolution approving the cancellation of investment in Chaba Elegance Co., Ltd. since such business needs a high expertise and competency level, resulting in the slowing down of the business expansion which does not follow the Company's objective. The Company entered into the separation agreement for the investment in Chaba Elegance Co., Ltd. with the former shareholders on 6 October 2019.

Under the separation agreement, the former shareholders agreed to cancel the remaining amount of shares totalling Baht 31.25 million that the Company has not yet paid according to the share purchase agreement and the former shareholders agreed to return the Company amount of Baht 93.75 million that the former shareholders received to the Company in 8 installments i.e., within 2019 totaling Baht 43.75 million, within 2020 totaling Baht 35 million, and within 2021 totaling 15 million. The former shareholders agreed to pay the Company with 8 advance dated cheques with amounts and at due dates specified in the separation agreement.

 บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
 SIAM WELLNESS GROUP PUBLIC COMPANY LIMITED

As at 31 December 2021, the Company cannot draw the money from the cheque which was due on 30 June 2020, 30 September 2020, 31 December 2020, 31 March 2021 and 30 June 2021 totaling Baht 45 million (cheque No. 4 to No. 8). The management of the Company has followed up and filed a lawsuit against the former shareholders for these four cheques that cannot be drawn on August 2020, October 2020, January 2021, May 2021 and July 2021, respectively. The former shareholders informed that they are in the process of arranging their assets and following procedures in order to pay for such amounts due to the Company. According to the judgment of the Court of First Instance in January 2022, the defendant lost the case relating to the cheque No.4. However, the defendant is in the process of submission an appeal to the Court. For the cheques No.5 to No.8, the Company requests the consolidation of cases, which currently are in the process of the taking of evidence. The management of the Company considers that the former shareholders have an ability to pay for such share returns to the Company in full amount. The Company expected to be received within one year amounting to Baht 9.2 million.

The movement of share return receivables from the former shareholders for the year ended 31 December 2021 are as detailed below.

On 31 December 2019, the Company entered into the sales and purchase agreement of condominium unit with a non-related person with the amount of Baht 36.5 million. During the year ended 31 December 2020, the Company received the deposit amounted Baht 2 million. According to the agreement, the buyer shall pay for the remaining amount of Baht 34.5 million within 31 December 2020. However, on 16 January 2021 and 20 June 2021, the Company entered into the memorandum of the agreement with the buyer to postpone the settlement for the remaining amount to be within 1 July 2021 and 5 January 2022, respectively, due to the COVID-19 pandemic situation. However, since the COVID-19 pandemic situation has yet to improve, the Company entered into another memorandum of the agreement with the buyer on 5 January 2022 to postpone the settlement of the remaining amount to be within December 2022.

As at 31 December 2021 and 2020, the Company classified such condominium unit with its net book value of Baht 32.3 million as “Non-current assets classified as held for sale” under current assets in the consolidated and separate statement of financial position.

The Company arranged for an independent professional value to appraise the value of land in 2018. Land was revalued using the comparable market approach for the basis of the revaluation.

Had the lands carried in the financial statements on a historical cost basis, their net book value as of 31 December 2021 and 2020 would have been as follows:

	(Unit: Thousand Baht)	
	Consolidated and Separate financial statements	
	2021	2020
Land	165,557	165,557

A breakdown of the land carried on a revaluation basis is as follows:

	(Unit: Thousand Baht)	
	Consolidated and Separate financial statements	
	2021	2020
Original costs	165,557	165,557
Surplus from revaluations	113,209	113,209

As at 31 December 2021, certain items of building and building improvements, furniture, fixtures and equipment and motor vehicles were fully depreciated but are still in use. The gross carrying amount before deducting accumulated depreciation of those assets amounted to approximately Baht 257.1 million (2020: Baht 205.6 million) (The Company only: Baht 180.2 million (2020: Baht 141.9 million)).

As at 31 December 2021, the Company has pledged its land and structures thereon and non-current assets classified as held for sale with net book value of Baht 349.0 million (2020: the Company has pledged its land and structure thereon with net book value of Baht 264.0 million) as collateral against its bank overdrafts facilities and long-term loans facilities as disclosed in Note 17 to the consolidated financial statements.

During the year 2021, the Company performed impairment review for its property, plant and equipment to ensure that the carrying amount of the assets presented at their recoverable amounts. This is because the COVID-19 pandemic situation that significantly impact the business operations led to the indicator of the impairment loss. The Company has determined the recoverable amounts of its assets based on value in use using cash flow projections from financial estimation approved by management.

Key assumption used in value in use calculation is discount rate for which 2021 using at the rate of 10% (2020: 8%). The sensitivity analysis of impairment losses of property, plant and equipment and right-of-use assets for 2021 increased of Baht 2 million (2020: Baht 8 million) for the increasing of 0.5% of discount rate.

The loan agreement contains several covenants which, among other things, require the Company and subsidiaries to maintain debt-to-equity ratio and debt service coverage ratio at the rate prescribed in the agreements.

As at 31 December 2021, the Company and subsidiaries have been unable to maintain some financial ratios covenants under the loan agreements (unrelated to principle and interest payment) for loan facilities No. 1 to No. 5 and No. 7 to No. 13 which in December 2021, the Company and its subsidiaries have received waiver letters for not complying with such covenants from the Banks. As a result, the outstanding balances as at 31 December 2021 of these loans facilities are classified as current liabilities according to the conditions specified in the loan agreements.

On 23 September 2021, the Company has entered into the loan agreement with a third party for the facility of Baht 120 million (loan facility No. 14) in order to support the construction and decoration of that third party's establishment according to the drawdown condition specified in the agreement.

The loan facility No. 1 to No. 3 and No. 8 and No. 9 are secured by the mortgage of land and structures thereon, the loan facility No. 10 and No. 11 are secured by the mortgage of land and structures thereon and non-current assets classified as held for sales of the Company, as disclosed in the Note 13 to the consolidated financial statements. The loan facility No. 4 has no collateral, and the loan facility No. 5 to No. 7 which are long-term loans of its subsidiaries are guaranteed by the Company. For loan facility No. 12 and No. 13 which are also long-term loans of its subsidiaries are guaranteed by Thai Credit Guarantee Corporation and the Company. For loan facility No. 14 is secured by the mortgage of land and structures thereon of a related party.

In addition, as at 31 December 2021 a subsidiary has credit facility in terms of bank overdraft for the amount of Baht 5 million (2020: Baht 5 million), which is secured by the Company and land and structure thereon of the Company.

As at 31 December 2021, long-term credit facilities of a Company which have not yet been drawn down amounted to Baht 112 million (2020: Baht 31 million).

26. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the Company's Board of Directors.

For management purposes, the Group is organised into business units based on its products and services and have three reportable segments as follows:

 บริษัท สยามเวลเนสกรุ๊ป จำกัด (มหาชน)
 SIAM WELLNESS (GROUP) PUBLIC COMPANY LIMITED

- Spa services, which operates day spa and destination spa. Also, provides spa management and spa consultancy services.
- Sales of spa products and healthy products, which distributes natural spa products both and spa equipment for domestic and international market.
- Hotel and restaurant, which operates boutique resort and restaurant.

No operating segments have been aggregated to form the above reportable operating segments.

The chief operating decision maker monitors the operating results of the business units separately for the purpose of making decisions about resource allocation and assessing performance. Segment performance is measured based on operating profit or loss and total assets and on a basis consistent with that used to measure operating profit or loss and total assets in the financial statements.

The basis of accounting for any transactions between reportable segments is consistent with that for third party transactions.

The following tables present revenue and profit information regarding the Group's operating segments for the years ended 31 December 2021 and 2020, respectively.

30. Financial instruments

30.1 Financial risk management

The Group's financial instruments, principally comprise cash and cash equivalents, current investments, trade and other receivables, lease receivables, share return receivables, restricted deposits of financial institution, trade and other payables, liabilities under finance lease agreements, and loans. The financial risks associated with these financial instruments and how they are managed is described below.

Credit risk

The Group is exposed to credit risk primarily with respect to deposit at financial institutions trade and other receivables and share return receivables. The Group manages the risk by adopting appropriate credit control policies and procedures and therefore does not expect to incur material financial losses. In addition, the Group does not have high concentrations of credit risk since their businesses are sales and services to minor customers. The maximum exposure to credit risk is limited to the carrying amounts of deposit at financial institutions, trade and other receivables, and share return receivables as stated in the statements of financial position.

Trade receivables

An impairment analysis is performed at each reporting date to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar credit risks. The Group classifies customer segments by customer type and does not hold collateral as security. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Cash deposits

The credit risk on debt instruments is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

Interest rate risk

The Group's exposure to interest rate risk relates primarily to their deposit at financial institutions, restricted deposits of financial institution, bank overdrafts from financial institution, short-term loans from related parties, loans, and liabilities under finance lease agreements. Most of the Group's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market rate.

As at 31 December 2021 and 2020, significant financial assets and liabilities classified by type of interest rate are summarised in the table below, with those financial assets and liabilities that carry fixed interest rates further classified based on the maturity date, or the repricing date if this occurs before the maturity date.

Interest rate sensitivity

The following table demonstrates the sensitivity of the Group's profit before tax to a reasonably possible change in interest rates on that portion of market rate affected as at 31 December 2021 with all other variables held constant.

2021			
Currency	Consolidated and Separate financial statements	Consolidated financial statement	Separate financial statement
	Increase/decrease	Effect on profit before tax

	Increase/decrease (%)	Effect on profit before tax (Million Baht)	
Baht	0.5	(2.4)	(2.3)
	(0.5)	2.4	2.3

The above analysis has been prepared assuming that the amounts loans from and all other variables remain constant over one year. Moreover, the floating legs of these loans are assumed to not yet have set interest rates. As a result, a change in interest rates affects interest payable for the full 12-month period of the sensitivity calculation. This information is not a forecast or prediction of future market conditions and should be used with care.

Foreign currency risk

The Group's exposure to foreign currency risk arises from deposit at overseas banks, purchase and service transactions that are denominated in foreign currencies. The Group does not expect to incur material losses from the exchange rates as their businesses are sales and services to minor customers. The Group had no forward contracts outstanding balance as at the end of reporting period.

As at 31 December 2021 and 2020, the balances of financial assets and liabilities denominated in foreign currencies are summarised below.

Liquidity risk

The Group monitors the risk of a shortage of liquidity through the use of bank loans and lease contracts. Approximately 21% of the Group's debt will mature in less than one year at 31 December 2021 (2020: 19%) (the Company only: 21% (2020: 19%)) based on the carrying value of borrowings reflected in the financial statements. The Group has assessed the concentration of risk with respect to refinancing its debt and the Group's operating, the Group concluded it to be low. The Group has access to a sufficient variety of sources of funding and debt maturing within 12 months can be rolled over with existing lenders.

The table below summarises the maturity profile of the Group's non-derivative financial liabilities instruments as at 31 December 2021 based on contractual undiscounted cash flows:

30.2 Fair values of financial instruments

The methods and assumptions used by the Group in estimating the fair value of financial instruments are as follows:

- For financial assets and liabilities which have short-term maturity, including cash and deposit at financial institutions, trade and other receivables and trade and other payables, their carrying amounts in the statements of financial position approximate their fair values.
- For current investments, their fair values are generally derived from quoted market prices.
- For share return receivables, their carrying amounts in the statements of financial position approximates their fair values.
- Future cash flow by the current market interest rate of the loans with similar terms and conditions. As at 31 December 2021 and 2020, fixed rate long-term loans are detailed below.

(Unit: Million Baht)

	Consolidated financial statements				Separate financial statements			
	Carrying amount		Fair value		Carrying amount		Fair value	
	2021	2020	2021	2020	2021	2020	2021	2020
Long-term loans from financial institutions - fixed interest rate	167	68	161	64	123	43	118	40

- For long-term loan carrying interest approximate to the market rate, their carrying amounts in the statements of financial position approximates their fair values.
- For lease receivables and lease liabilities which their interest rates are close to the market rate, their carrying amounts in the statements of financial position approximate their fair values.

During the current year, there were no transfers within the fair value hierarchy.

31. Capital management

The primary objective of the Group's capital management is to ensure that they have appropriate capital structure in order to support their businesses and maximise shareholder value.
