### Positive surprise on greater GPM and lower opex

SPA reported a net profit of Bt50.5m, beating our estimate and Bloomberg consensus by 80% and 68%, respectively. Stripping out a Bt7.9m gain from rental contract changes, core profit totaled Bt42.5m (vs Bt28m estimates), up 211% QoQ on better-than-expected GPM and lower OPEX. With 1Q23A earnings accounting for 23% of our full year forecast, we maintain our 2023F and our Buy rating, projecting a strong recovery trend going forward from the resumption of Chinese tourists.

### Strong revenue as anticipated

Revenue arrived in line at Bt320m (+191% YoY, +17% QoQ), marking a 17-quarter high, supported by an above-80% staff utilization rate, thanks to strong tourist momentum and full recognition of the company's 7-8% price hikes since Nov'22. Subsequently, GPM expanded to 27.6% (vs. 26.0% estimated) from 22.1% in 1Q22 on better economies of scale. SG&A expense to sales, meanwhile, fell to a normal level of 10.9% from 12.6% in 4Q22.

### Expect further growth QoQ in 2Q23F

We expect to see further growth QoQ in 2Q23F from strong momentum in revenue growth and expansion of new branches and the sleep lab venture. In the meantime, SPA should benefit from its superior ability to recruit therapists vs small standalone competitors.

### We base our TP on DCF

We maintain our BUY rating with an unchanged TP of Bt12.5. We base our TP on the DCF method (WACC of 7.8% with terminal growth of 2.5%). Key risks are lower-than-expected tourist arrivals and political uncertainties.
